Accessible Technology and the Developing World Michael Ashley Stein, Jonathan Lazar, 2021-10-13 When digital content and technologies are designed in a way that is inaccessible for persons with disabilities they are locked out of commerce education employment and access to government information In developing areas of the world as new technical infrastructures are being built it is especially important to ensure that accessibility is a key design goal Unfortunately nearly all research on Information and Communication Technology ICT accessibility and innovation for persons with disabilities whether from the legal technical or development fields has focused on developed countries with very little being written about developing world initiatives Accessible Technology and the Developing World aims to change this by bringing increased attention to ICT accessibility in developing areas This book brings together a unique combination of contributors with diverse disciplinary backgrounds including authors from well known non governmental organizations significant United Nations entities and universities in both the developing and developed world Together they present a unique and much

needed review of this critical and growing area of work and primarily address three core themes the lack of attention given to innovations taking place in the developing world the need to ensure that infrastructures in the Global South do not present barriers to people with disabilities and the need to exercise caution when applying techniques from the Global North to the Global South that won't transfer effectively This book will be of use to researchers in the fields of civil rights development studies disability rights disability studies human computer interaction and accessibility human rights international law political science and universal design

AI Review of Products, Services, and Research ,1991-07 **Digitalization and Women's Rights** Muharrem Kılıç,Sezer Bozkuş Kahyaoğlu,2025-10-20 Technological advancements frequently hinder the progress of women in the business sphere In our current landscape the rapid evolution of technology driven by digital transformation has created significant barriers to women's participation This has given rise to new forms of discrimination that often go unacknowledged and unaddressed The unfortunate reality is that this issue is sidelined in discussions about the economy and broader implications for employment We must recognize and confront the unique challenges women face in this technological age as their exclusion not only impacts them but also stifles innovation and growth in our economy It is time to advocate for a more inclusive approach that empowers women in the tech world In this vital context it is essential to recognize the discrimination and emerging challenges that women will face although these issues may not have been previously explored in sufficient detail This work has been thoughtfully created to fill that gap serving as a crucial reference about these matters By shedding light on existing gaps in the research this book promises to enrich future studies and provide invaluable insights for researchers who investigate and evaluate related works One of the most pressing challenges ahead for women in the rapidly evolving digital landscape is understanding and navigating the economic opportunities available to them As we enter this new era women will undergo a transformative journey that demands adaptability and learning in the face of continuous innovation This work aspires to contribute significantly to these conversations and empower women as they embrace the future
