The Psychology Student Writer's Manual and Reader's Guide Jill M. Scott, Gregory M. Scott, Stephen M.

Garrison, 2018-03-02 The Psychology Student Writer's Manual 3 E is a practical guide to research reading and writing in the discipline. Ideal as either a companion or stand alone text for any psychology course that requires students to write papers. This clear and functional handbook shows how to research and write in psychology as well as improve one's overall writing ability. Covering every fundamental aspect of writing from content to form, grammar, tracking sources of information and citing sources, it assists students in preparing two specific types of papers: research reports and term papers. Comprehensive source. Contains all the information needed to write most types of papers typically assigned in the discipline of psychology. Provides students with a complete, one-stop, easy-to-follow reference source on how to research and write papers, including how to conduct research in psychology, how to find information on topics related to psychology, how to incorporate citations, and more. Thorough review of writing basics and formatting instructions. Addresses fundamental concerns of all writers, exploring the reasons why we write, describing the writing process itself, and examining those elements of grammar, style, and punctuation that cause the most confusion among writers in general. Shows students the key elements of good writing and effective communication. Gives students a quick and handy grammar reference source and provides them with a detailed, easy-to-follow guide to preparing papers according to accepted formats. Creative writing assignments. Offers practical writing exercises with step-by-step instructions. Heightens students' interest in the study of psychology and frees professors from the duty of teaching students to write the papers most often assigned in psychology classes. APA standards. Complies with all APA style requirements; displays formats for text, title pages, reference pages, tables of contents in APA format; details the APA citation system and discusses the crucial responsibility of every psychology writer to use source material ethically. General analysis of psychology. Helps students obtain a deeper understanding of what constitutes the discipline of psychology so that they will become better and more educated writers on the subject.

Cataloging Library Resources: An Introduction

Marie Keen Shaw, 2024-08-06 This revised text is aimed specifically for library support staff and purposefully aligned with the American Library Association Library Support Staff Certification LSSC competency standards for Cataloging and Classification. In recent years, AACR2 rules and MARC21 cataloging standards have evolved to RDA rules and BIBFRAME standards. Today, catalogers must have the knowledge and skills to apply RDA rules of cataloging and use the BIBFRAME standards for data entry. Written in clear language and featuring practical examples. Cataloging Library Resources: An Introduction. Revised edition will instruct library support staff to become proficient catalogers. Other books on this topic are written for professional librarians rather than support staff. And although the majority of library support staff do not hold professional degrees, many are expected to do the complex and technical work of catalogers. This book provides many examples that support staff can use to learn how to catalog all types of library print media and digital materials using the

most up to date Library of Congress standards Using this handbook as a guide readers will be able to perform the ALA LSSC cataloging and classification competencies and the new RDA FRBR and BIBFRAME standards listed below Apply and manage the appropriate processes computer technology and equipment for cataloging and classification Apply principles of Resource Description and Access RDA and the Functional Requirements for Bibliographic Records FRBR when creating cataloging records Apply principles of the Bibliographic Framework Initiative BIBFRAME and utilize the BIBFRAME model to create cataloging records Use the basic cataloging and classification tools both print and online including bibliographic utilities and format standards Understand the value of authority control and its basic principles and can identify and apply appropriate access points for personal names corporate bodies series and subjects Explain the value and advantages of cooperative or collaborative cataloging practices to enhance services Know the basics of standard metadata formats and cataloging rules to select review and edit catalog records and to generate metadata in various formats Use and apply the classification systems of Dewey Library of Congress and Government Documents And much more

How to Enhance Learning Efficiency When Online Learning is Popular and Indispensable: Theory, Research and Practice Rong Lian, Chang Liu, Juzhe Xi, 2024-07-17

Online learning has become more and more common globally whether for comfort adapting to work hours or just having the freedom to study from anywhere And now under the coronavirus pandemic as people are having to stay at home it has become more important than ever Although the popularity of wireless network and portable smart device makes it possible for people to acquire and learn knowledge anytime and anywhere it does not necessarily mean an increased learning performance Relevant research in cognitive science has revealed possible limitations in online learning For example the knowledge acquired through online learning tends to be fragmented and lacks guidance for integrated thinking among different subjects which makes it difficult for learners to form a systematic knowledge structure Learners may experience cognitive overload metacognitive illusion and low learning efficiency in self regulated learning It follows that in the post COVID 19 era online learning puts forward new requirements and challenges to the contemporary students not only to their learning strategies but positive character traits in learning Most of the current learning theories were developed in the early 20th century and may not fit in well with the current situation then possibly leading to inefficient learning and increased learning burden Therefore it is necessary and important to reexplore the influencing factors and mechanisms that affect the learning efficiency of students at all levels nowadays based on which we could construct a theoretical model of efficient learning model
