Technology in Education Karen Borgnakke, 2025-11-13 This monograph explores AI applications in education arguing that ChatGPT rooted in language models and machine learning must be understood within the practical contexts of AI use To do so this analysis draws on social and humanistic theories of language and communication The opening chapters introduce tools to analyze the chatbot's text and its human-like language The discussion then follows the political debate around AI chatbots both banned and embraced moving from policy to practice Through ethnographic case studies the book contrasts official narratives with how chatbots function in real world settings This book is suited for researchers faculty students and professionals in social sciences psychology education communication teacher training IT and learning technologies The Routledge Handbook of Second Language Acquisition and Pedagogy of Persian Pounesh Shabani-Jadidi, 2020-07-16 The Routledge Handbook of Second Language Acquisition and Pedagogy of Persian offers a detailed overview of the field of Persian second language acquisition and pedagogy The Handbook discusses its development and captures critical accounts of cutting edge research within the major subfields of Persian second language acquisition and pedagogy as well as current debates and problems and goes on to suggest productive lines of future research The book is divided into the following four parts I Theory driven research on second language acquisition of Persian II Language skills in second language acquisition of Persian III Classroom research in second language acquisition and pedagogy of Persian and IV Social aspects of second language acquisition and pedagogy of Persian The Routledge Handbook of Second Language Acquisition and Pedagogy of Persian is an essential reference for scholars and students of Persian SLA and pedagogy as well as those researching in related areas *Tomorrow's People and New Technology* Felix Dodds, Carolina Duque Chopitea, Ranger Ruffins, 2021-10-13 As we witness a series of social political cultural and economic changes disruptions this book examines the Fourth Industrial Revolution and the way emerging technologies are impacting our lives and changing society The Fourth Industrial Revolution is characterised by the emergence of new technologies that are blurring the boundaries between the physical the digital and the biological worlds This book allows readers to explore how these technologies will impact people's lives by 2030 It helps readers to not only better understand the use and implications of emerging technologies but also to imagine how their individual life will be shaped by them The book provides an opportunity to see the great potential but also the threats and challenges presented by the emerging technologies of the Fourth Industrial Revolution posing questions for the reader to think about what future they want Emerging technologies such as robotics artificial intelligence big data and analytics cloud computing nanotechnology biotechnology the Internet of Things fifth generation wireless technologies 5G and fully autonomous vehicles among others will have a significant impact on every aspect of our lives as such this book looks at their potential impact in the entire spectrum of daily life including home life travel education and work health entertainment and social life Providing an indication of what the world might look like in 2030 this book is essential reading for students scholars professionals and policymakers interested in the nexus between emerging technologies and sustainable

development politics and society and global governance The Almighty Machine Pekka Vahvanen,2022-02-25 The hymn of Digitalization is nothing new We must encourage the creation of new apps We must develop AI in order to prevail among international competition Technology s advance will halt climate change and let robots do the dumb stuff for us Our faith in technology is powerful because it has saved us in the past The Almighty Machine shows us technology s flip side The things that once powered us toward a brighter tomorrow are already undermining our quality of life The data stream has shattered our concentration human relationships have been reduced to a menu of emojis constant surveillance has nullified much of our privacy and the development of AI could be the beginning of the end for us We are becoming the casualties of our own success Pekka Vahvanen s bristling and timely critique deftly translated by Mark Jones throws doubt on the necessity of technological development in a world saturated in tech The Almighty Machine presents an important question Does progress no longer make us happier **The Politics of Combating Human Trafficking in the United States** Nancy E.

Marion, Kimberly J. Hufgard,2025-03-04 This book examines political responses to the problem of human trafficking including proposals actions legislative and executive and statements made by politicians government agencies and civil society organizations to solve or mitigate the crime of human trafficking The objective is not just to recognize the nature and impact of human trafficking but to understand the approaches used or recommended to solve the problem and the motivations behind such strategies The issue of human trafficking has become particularly important given the charged environment regarding border politics The book details the various policy options that have been proposed supported opposed or passed by US politicians over the past five to ten years This includes decisions made by presidents legislators national and state agencies and interest groups Court decisions on human trafficking policies and media coverage of events are also explored This political analysis is designed to help readers understand what motivated the proposals designed to address human trafficking and the impact those policies had or are having This book is ideal as a primary text for college courses in human trafficking and modern slavery or a supplemental text for a range of scholarly courses of study including human rights criminal justice law and political science It is recommended for anyone with an interest in human trafficking and what might be done to stop it **Understanding the Technology Behind Online Offending** Christopher Wise,Jennifer

Bamford,2025-02-25 Understanding the Technology Behind Online Offending A Guide for Professionals in the Criminal Justice System is a non technical explanation of online offences by a cybersecurity expert bridging the gap between the high tech world of cybercrime and the non technical professionals working within it The book begins by equipping the reader with a foundational understanding of how the internet works before exploring the various ways that people can exploit the Internet to commit crimes The reader is then introduced to some of the sophisticated ways that individuals may evade detection before we explore the organisations fighting to prevent and capture those offending online The book includes a contributory chapter from solicitors at Stone King LLP to help the reader understand how the law is evolving to prosecute

offenders There is a further contributory chapter from psychologist Dr Ruth J Tully who discusses psychological risk assessment with those who offend online The book concludes with important chapters looking at how professionals can keep themselves safe online and future directions of the internet The book s intended audience includes all professionals who work with those who commit online offences such as psychologists solicitors social workers probation officers and police officers The book is also suitable for those in training or graduate education *The REAL Social Compact, Form #08.030*
