Expert Systems: Artificial Intelligence in Business Paul Harmon, David King, 1985 Introduces readers to the basic principles and the exciting promise of a new generation of computer programs known as knowledge or expert systems and their associated technologies Explains what they do how they work and how they will be used to increase efficiency and productivity Knowledge systems are

computer programs that can help solve problems in the same fashion as human experts Many studies have concluded that in the course of the next 20 years knowledge systems will revolutionize the way businesses are conducted and this book provides a preview of how that revolution will occur **Creating Expert Systems for Business and Industry** Paul Harmon,Brian Sawyer,1990 This book describes the technology behind an emerging revolution in software the expert system revolution **Technical Digest** ,1986 **Museum Flack** Steve Lott,2025-09-04 In recent years museums have found themselves on the front pages for all the wrong reasons News coverage once reserved for exciting exhibits or landmark donations now shines a harsh spotlight on controversies leadership disputes funding flaws political orders and an array of reputational crises Two thirds of museum leaders report feeling unprepared when facing journalists with many describing their first media crisis as overwhelming and damaging These stories broadcast to national audiences shape public perceptions in minutes sometimes undoing years of careful work The heart of the issue lies in a critical and often overlooked gap while museum directors typically master museum administration curatorial or educational work few possess the training or experience needed to respond to relentless media scrutiny Nearly every museum from the largest institution to local history centers struggles with limited resources This gap has led to missed opportunities for positive news coverage and in some cases public misunderstandings that have hurt careers and endangered institutional trust Museum Flack arrives at this moment to fill the void an essential guide for everyone from students entering the field to seasoned executives and board members Drawing from lessons earned in high stakes media campaigns in aerospace and technology and enriched by illuminating museum specific case studies this book lays out exactly how museum professionals can Shape compelling narratives for the media Turn crisis moments into opportunities for trust building Secure positive national news coverage with thoughtful planning not enormous budgets Confidently navigate the modern media landscape from newspapers to TikTok Museum Flack unpacks the techniques behind headlines and empowers any museum professional to advocate for their institution safeguard its reputation and seize the media spotlight for all the right reasons Every chapter offers step by step tactics and real world examples transforming complex communications challenges into clear actionable strategies The time to master museum public relations is now Readers who embrace these lessons will champion their institutions protect their legacies and help museums thrive even under the sharpest media lens **ICT for Intelligent Systems** Jyoti Chaudri,Parikshit N. Mahalle,Thinagaran Perumal,Amit Joshi,2025-10-29 This book gathers papers addressing state of the art research in all areas of information and communication technologies and their applications in intelligent computing cloud storage data mining and software analysis It presents the outcomes of the 9th International Conference on Information and Communication Technology for Intelligent Systems ICTIS 2025 held in Bangkok Thailand The book discusses the fundamentals of various data analysis techniques and algorithms making it a valuable resource for researchers and practitioners alike **ASTME Technical Digest** American Society of Tool and Manufacturing Engineers,1987
