The Innovative Executive Bella Rushi, 2022-05-17 In The Innovative Executive Bella Rushi helps business leaders react to ever changing environments with flexible thinking and adaptability to create work cultures that thrive on innovation risk taking and creativity Every executive knows that smart innovation is essential for success But how do you create new growth strategies and address old business models that are at risk due to competition global epidemics or other drastic changes in the marketplace Today many companies don t know how to select the right projects to pursue new growth opportunities They struggle to find the best market opportunities and can t decide how to efficiently allocate resources for R D Meanwhile new and old competitors alike are disrupting the marketplace in dismaying ways How do you innovate and win in today s fast moving business climate In The Innovative Executive internationally renowned Bella Rushi argues that innovation should not only be a priority for survival but also for creating new sustainable growth Companies need to flex their innovation muscles to reframe their business models develop new capabilities and leverage technology Without the right methodology and framework however it s difficult to succeed The Innovative Executive will show you how to build an innovation agenda Furthermore it will help you align your innovation goals with business strategies and invest in ideas that will open future opportunities Rushi examines how innovative executives articulate the dream of success and effectively integrate key capabilities to focus on customercentricity leverage technology and cultivate innovation competency and collaboration with their networks Through stories of successful companies and her experience consulting with Fortune 500 companies Rushi helps business leaders react to ever changing environments with flexible thinking and adaptability to create work cultures that thrive on innovation risk taking and creativity

Digital Communication Management Mark Badham, Vilma Luoma-aho, 2025-09-22 This state of the art textbook provides a wide ranging foundation to communication management including corporate communication public relations and strategic communication from an exclusively digital and global perspective The book covers the core principles necessary for introductory students of both university and executive programs with a particular focus on how digital technology is shaping communication management in the increasingly volatile environment To help bring theories concepts and challenges to life it features captivating real life stories case examples and studies and insightful Q As with senior practitioners collectively representing almost 40 organizations of various types and sizes from 20 countries across the world

Thought provoking exercises and critical and reflective questions contribute to a deeper level of understanding of each chapter s topics These and other pedagogical tools as well as the newly emerging Digital Media Arena DMA Framework orient readers with the fast changing global and volatile world of digital communication management Additionally the book extensively incorporates emerging topics and future trends in communication management e g digital communication hijacking misinformation virtual influencers and AI enabled predictive modeling This book is designed for courses or modules that cover an introduction to communication management corporate communication public relations and or strategic communication in communications and business schools Online resources also accompany the text an author created podcast PowerPoint lecture slides tutorial workshop exercises case studies reading reflection forms quizzes and instructions for assignments case study essay and podcast reflection Please visit the hyperlink www.routledge.com/9781032671307

Crypto Millionaires Mateusz Mach,2024-07-19 Blockchain the key to the world of cryptocurrencies a phrase that sounds like a promise of wealth But what exactly is Blockchain Unfortunately in most books articles and discussions it is either explained in a way that s hard to understand or oversimplified with unnecessary emotional baggage presented either technically or ideologically Some see Blockchain as a savior from greedy bankers while others view it as a tool for building cryptocurrencies that undermine central banks Which image is closer to reality The story of Blockchain is not just a tale of mathematical experiments It s primarily a story of the age old attempt to record human activities and the value that flows from them This time however the goal is to make it accessible to everyone on equal terms This book delves into the evolution and technical intricacies of Blockchain technology steering clear of the common focus on mere cryptocurrency speculation It clarifies complex concepts and underscores Blockchain s capacity to revolutionize industries and empower individuals globally thereby demystifying the technology and making its profound potential accessible to everyone **Expert**
