almost 15 million people had at least one conversation with a chatbot within the past year. Well, AI revolutionized how businesses help their clients. It enabled 24/7 support through chatbots and virtual assistants, increased efficiency, and allowed human agents to focus on more complex issues. There is just one issue: Not every chatbot is AI. Simultaneously, not all AI-powered solutions will be perfect for all tasks related to customer service, especially in the ecommerce field. Believe us, we would know. At Tidio, we help 300k businesses worldwide automate customer service, collect leads on autopilot, and increase sales. Tidio is one of the most installed chatbot and live chat companies worldwide, specializing in providing tailored customer service solutions. We always strive to be on the cutting edge and respond to our customers' biggest challenges. One of them is strategically combining rule-based and AI-powered chatbots so that businesses can elevate their customer service to new heights.

Money with AI: How ChatGPT Can Help You Jay Nans, 2025-11-14. The ebook *Money with AI: How ChatGPT Can Help You* is a practical, beginner-friendly guide for honestly earning income using the free version of ChatGPT without requiring technical skills.

Core Philosophy and Realism The book establishes that ChatGPT functions as a time-saving assistant and production partner, not an automatic money-making machine requiring consistent human effort and oversight. It stresses avoiding get-rich-quick scams and setting realistic expectations; initial earnings are typically small and emerge after a few weeks to a few months of consistent work.

Getting Started Initial chapters focus on using the free version of the tool, explaining what ChatGPT can and cannot do, and detailing the creation of effective prompts. Key rules for successful prompts include being clear about the task, providing context, giving format instructions, and iteratively checking and improving the AI's output.

Income Streams and Workflows The majority of the guide outlines multiple low-barrier income streams, providing step-by-step workflows. Tools primarily include ChatGPT, Canva, Google Docs, and example prompts for each.

Freelancing Writing: Offering services on platforms like Fiverr and Upwork, such as writing blog posts, crafting product descriptions, or producing outlines and content for ebooks.

Digital Products Passive Income: Creating and selling simple digital goods like low-content books, journals, planners, templates, resumes, and mini guides using AI to speed up the creation process.

Specialized Services Providing research and report summarization, generating social media content, captions, video scripts, creating customer support materials, FAQs, email templates, or packaging personal expertise into online micro-courses.

The 30 Day Plan The book culminates in a structured 30-Day AI Income Plan. This plan guides the beginner through four phases:

- Week 1: Learn** Master the basics of ChatGPT and supporting tools.
- Week 2: Create Samples** Build a small portfolio of work samples and micro-products.
- Week 3: Publish** Create professional profiles on freelance or digital product platforms (Fiverr, Etsy).
- Week 4: Start Earning** Actively apply for jobs and deliver first paid work.

Long-term advice emphasizes consistency, building business systems, and slowly scaling through pricing and product bundling.

Increase sales and lead generation with AI and chatbots Krzysztof Wroblewski, 2023-07-10. To grow your ecommerce business, you need to gain more clients. And to achieve it, you have to provide high-quality customer experience. Sounds logical. But the more visitors on your website, the more questions your

support agents have to handle And here is the challenge you need to face to successfully grow your store How to serve more clients answer more questions and maintain the highquality of support at the same time There are two ways The first is to constantly hire new support agents It probably will work but the cost you ll have to take for constantly recruiting and training new employees will be huge The second way is connected to technology that took the ecommerce industry and not only this one by a storm and will stay with us for a long time If not forever The AI
