solving and much more It also includes an extensive list of optimized prompts for everyday and specific tasks providing the reader with practical tools that can be implemented immediately This book is ideal for anyone who wants to take full advantage of ChatGPT's capabilities regardless of their level of prior AI experience Digital Management and Artificial Intelligence Richard C. Geibel, 2025 Zusammenfassung This book presents selected contributions from the Fourth International Scientific Practical Conference ISPC 2024 held on October 10-11, 2024, organized by IU International University East European University, Adelphi University, and the E-Commerce Institute, with contributions from Asia, Africa, Europe, and the USA. It discusses the challenges and opportunities of digital transformation and AI in different industries and introduces advanced research and solutions from both academic and professional perspectives. The topics covered include artificial intelligence, digitalization in healthcare, legal systems, corporate responsibility, e-commerce, digital entrepreneurship, and digital transformation in education. One key topic is social commerce, including live shopping as a blend of social media and e-commerce. The interaction between digitalization and sustainability is also explored. The growing influence of artificial intelligence in the financial sector is examined as well. Additionally, investigations into the impact of digitalization on the education sector and the labor market are included. All studies focus on the unique opportunities presented by digitalization and describe how these new potentials can be translated into concrete benefits. The book is an engaging read for researchers and professionals interested in digital management, one of the most significant developments of recent times.

Entrepreneurial Ecosystems Parisa Baig, Elizabeth Montoya-Martinez, Maksim Belitski, Christina Theodoraki, Andrew Godley, 2025-08-30 This book emerged from a need in the field of entrepreneurial ecosystems to link foundational theories with practical realities faced by entrepreneurs as they acquire and manage resources when creating a new firm. It also seeks to address how different agents of the entrepreneurial ecosystems interact to facilitate new venture formation. The book's core thesis posits that a comprehensive grasp of resource dynamics, including acquisition and management and flow, is essential for cultivating sustainable entrepreneurial environments that can significantly reduce the failure rate of startups. The book seeks to provide answers to how resources within these ecosystems—financial, social, and human—are acquired and how these processes impact the success or failure of new enterprises. Through a combination of case studies, theoretical analysis, and policy recommendations, the work distinguishes itself by integrating rigorous academic theory with practical real-world application. This dual approach not only resolves current ambiguities regarding the roles and effects of different ecosystem participants but also reveals the frequently overlooked narratives of interdependence and collaboration that are crucial for fostering sustainable entrepreneurial settings. **Future-Proof Legal Services** Riccardo de Caria, Silvia Martinelli, 2025-11-27 Analyses the profound transformation that has been affecting the business of law around the world.
