City of Islands Tammy L. Brown, 2015-09-02 Tammy L Brown uses the life stories of Caribbean intellectuals as windows into the dynamic history of immigration to New York and the long battle for racial equality in modern America The majority of the 150 000 black immigrants who arrived in the United States during the first wave of Caribbean immigration to New York hailed from the English speaking Caribbean mainly Jamaica Barbados and Trinidad Arriving at the height of the Industrial Revolution and a new era in black culture and progress these black immigrants dreamed of a more prosperous future However northern style Jim Crow hindered their upward social mobility In response Caribbean intellectuals delivered speeches and sermons wrote poetry and novels and created performance art pieces challenging the racism that impeded their success Brown traces the influences of religion as revealed at Unitarian minister Ethelred Brown s Harlem Community Church and in Richard B Moore s fiery speeches on Harlem street corners during the age of the New Negro She investigates the role of performance art and Pearl Primus s declaration that dance is a weapon for social change during the long civil rights movement Shirley Chisholm s advocacy for women and all working class Americans in the House of Representatives and as a presidential candidate during the peak of the Feminist Movement moves the book into more overt politics Novelist Paule Marshall s insistence that black immigrant women be seen and heard in the realm of American Arts and Letters at the advent of multiculturalism reveals the power of literature The wide ranging styles of Caribbean campaigns for social justice reflect the expansive imaginations and individual life stories of each intellectual Brown studies In addition to deepening our understanding of the long battle for racial equality in America these life stories reveal the powerful interplay between personal and public politics

Civil Rights Music Reiland Rabaka, 2016-05-03 While there have been a number of studies that have explored African American movement culture and African American movement politics rarely has the mixture of black music and black politics or rather black music as an expression of black movement politics been explored across several genres of African American movement music and certainly not with a central focus on the major soundtracks of the Civil Rights Movement gospel freedom songs rhythm blues and rock roll Here the mixture of music and politics emerging out of the Civil Rights Movement is critically examined as an incredibly important site and source of spiritual rejuvenation social organization political education and cultural transformation not simply for the non violent civil rights soldiers of the 1950s and 1960s but for organic intellectual artist activists deeply committed to continuing the core ideals and ethos of the Civil Rights Movement in the twenty first century Civil Rights Music The Soundtracks of the Civil Rights Movement is primarily preoccupied with that liminal in between and often inexplicable place where black popular music and black popular movements meet and merge Black popular movements are more than merely social and political affairs Beyond social organization and political activism black popular movements provide much needed spaces for cultural development and artistic experimentation including the mixing of musical and other aesthetic traditions Movement

music experimentation has historically led to musical innovation and musical innovation in turn has led to new music that has myriad meanings and messages some social some political some cultural some spiritual and indeed some sexual Just as black popular movements have a multiplicity of meanings this book argues that the music that emerges out of black popular movements has a multiplicity of meanings as well

Malaysia's New Ethnoscapes and Ways of Belonging Gaik Cheng Khoo, Julian C.H. Lee, 2017-10-02 This book provides a picture of a globalized Malaysia where its conventionally conceived multi ethnic composition of Malays Chinese Indians and Others rub shoulders with or interact more intimately on a daily basis with transnational ethnoscapes of migrant workers asylum seekers international students and foreign spouses It asks how as Malaysians become wedded to their citizenship they extend the same awareness of rights and claims to non citizens such as African international students the Indonesian maids who look after their children and the Chins and stateless Rohingyas who populate the landscape as refugees and undocumented workers What are the possibilities of forming cosmopolitan solidarities with non Malaysians And what are the newcomers strategies for place making and belonging And to bring the discussions of citizenship in Malaysia into relief it is also asked how Malaysians abroad seek to enact and make meaningful their Malaysian citizenship A diversity of experiences shapes the narratives in the chapters of racialization rejection boundary making and exclusivity resilience and adaptation This book was published as a special issue of Citizenship Studies

Nicodemus Charlotte Hinger, 2016-05-10 Pushed out of the South as Reconstruction ended and as white landowners employers and Redeemer governments sought to reestablish the constraints of slavery thousands of African Americans migrated west in search of better opportunities As the first well known all black community on the plains Nicodemus Kansas became a national exemplar of black self improvement But Nicodemus also embodied many of the problems facing African Americans during this time Diverging philosophies within the community Charlotte Hinger argues foretold the differences that continue to divide black politicians and intellectuals today At the time Nicodemus was founded politicians underestimated the power of

African American voters But three of the town s black homesteaders Abram Thompson Hall Jr Edward Preston McCabe and John W Niles exerted extraordinary influence over county state and national politics Hinger examines their divergent strategies for leading their community and for relating to white people which reflected emerging black worldviews across the United States as African Americans grappled with the responsibilities accompanying their new freedom Hall supported racial uplift McCabe insisted on achieving equality through politics and legislation and Niles advocated reparations for slavery Hall and McCabe both northerners had distinguished educations while Niles a former slave was a gifted orator Their differing approaches to creating a new civilization on the prairie seeking justice for blacks and improving the situation of Nicodemus citizens roiled Kansas politics already in turmoil over temperance and woman s suffrage Nicodemus was a microcosm of all the issues facing black Americans in the late nineteenth century and Hall McCabe and Niles are archetypes for powerful philosophies that have persisted into the twenty first century This study of their ideas and the ways they shaped Nicodemus offers a novel perspective on the most famous post Civil War African American community in the West
