Dungy,2009 Black Nature is the first anthology to focus on nature writing by African American poets a genre that until now has not commonly been counted as one in which African American poets have participated Black poets have a long tradition of incorporating treatments of the natural world into their work but it is often read as political historical or protest poetry anything but nature poetry This is particularly true when the definition of what constitutes nature writing is limited to work about the pastoral or the wild Camille T Dungy has selected 180 poems from 93 poets that provide unique perspectives on American social and literary history to broaden our concept of nature poetry and African American poetics This collection features major writers such as Phillis Wheatley Rita Dove Yusef Komunyakaa Gwendolyn Brooks Sterling Brown Robert Hayden Wanda Coleman Natasha Trethewey and Melvin B Tolson as well as newer talents such as Douglas Kearney Major Jackson and Janice Harrington Included are poets writing out of slavery Reconstruction the Harlem Renaissance the Black Arts Movement and late twentieth and early twenty first century African American poetic movements Black Nature brings to the fore a neglected and vital means of considering poetry by African Americans and nature related poetry as a whole A Friends Fund Publication The New Red Negro James Edward Smethurst,1999 The New Red Negro surveys African American poetry from the onset of the Depression to the early days of the Cold War It considers the relationship between the thematic and formal choices of African American poets and organized ideology from the proletarian early 1930s to the neo modernist late 1940s This study examines poetry by writers across the spectrum canonical less well known and virtually unknown The ideology of the Communist Left as particularly expressed through cultural institutions of the literary Left significantly influenced the shape of African American poetry in the 1930s and 40s as well as the content One result of this engagement of African American writers with the organized Left was a pronounced tendency to regard the re created folk or street voice as the authentic voice and subject of African American poetry Furthermore a masculinist rhetoric was crucial to the re creation of this folk voice This unstable yoking of cultural nationalism integrationism and internationalism within a construct of class struggle helped to shape a new relationship of African American poetry to vernacular African American culture This relationship included the representation of African American working class and rural folk life and its cultural products ostensibly from the mass perspective It also included the dissemination of urban forms of African American popular culture often resulting in mixed media high low hybrids **Modern African American Poets** Yasser K. My Black Me Various,1995-11-01 What does it mean to be black What does it mean to be African American What is the black experience The spirited voices of twenty six African American poets speak to these and other questions in fifty collected poems that explore the African American world The rich words of this treasury rang out for the first time over twenty years ago and will continue to shout their message for years to come **Renegade Poetics** Evie Shockley,2011-10 Beginning with a deceptively simple question what do we mean when we designate behaviors values or forms of expression as black Evie Shockley s Renegade poetics teases out the more complex and nuanced possibilities the concept has long encompassed She redefines black aesthetics descriptively resituating innovative poetry that has been marginalized because it was not recognizably black and avant garde poetry dismissed because it was Back cover *Fettered Genius* Keith D. Leonard,2006 In *Fettered Genius* Keith D Leonard identifies how African American poets use and revision of traditional poetics constituted an antiracist political agency Comparing this practice to the use of poetic mastery by the ancient Celtic bards to resist British imperialism Leonard shows how traditional poetics enable African American poets to insert racial experience racial protest and African American culture into public discourse by making them features of validated artistic expression As with the Celtic bards these poets artistry testified to their marginalized people s capacity for imagination and reason within and against the terms of the dominant culture In an ambitious survey that moves from slavery to the cultural nationalism of the 1960s Leonard examines numerous poets placing each in the context of his or her time to demonstrate the antiracist meaning of their accomplishments The book offers new insight on the conservatism of Phillis Wheatley Paul Laurence Dunbar and the genteel members of the Harlem Renaissance how their rage for assimilation functioned to refute racist notions of difference and paradoxically to affirm a distinctive racial experience as valid material for poetry Leonard also demonstrates how the more progressive and ethnically distinctive poetics of Langston Hughes Sterling Brown Gwendolyn Brooks Robert Hayden and Melvin B Tolson share some of the same ambivalence about cultural achievement as those of the earlier poets They also have in common the self conscious pursuit of an affirmation of the African American self through the substitution of African American vernacular language and cultural forms for traditional poetic themes and forms The evolution of these poetics parallels the emergence of notions of ethnic identity over racial identity and indeed in some ways even motivated this shift

Leonard recognizes poetic mastery as the African American bardic poet's most powerful claim of ethnic tradition and of social belonging and clarifies the full hybrid complexity of African American identity that makes possible this political self assertion. The development that is traced in *Fettered Genius* illustrates nothing less than the defining artistic coherence and political significance of the African American poetic tradition.

Negro Poets and Their Poems Robert Thomas Kerlin, 2019-11-19

In *Negro Poets and Their Poems* Robert Thomas Kerlin meticulously curates a collection that serves as both a historical document and a literary anthology reflecting the rich tapestry of African American poetry. Comprising works from prominent and emerging voices, Kerlin's literary style is characterized by its analytical depth and lyrical prose, paying homage to poets such as Paul Laurence Dunbar and Langston Hughes. Situated within the context of the Harlem Renaissance and the broader African American literary tradition, the book provides a critical examination of themes ranging from racial identity to social justice, illuminating the profound impact of African American poetry on the American literary landscape.

Robert Thomas Kerlin, an esteemed literary scholar and critic, was deeply influenced by the socio-political climate of his time, which prompted him to amplify the voices of marginalized writers. His academic journey and personal interests in African American literature motivated him to delve into the poetic contributions that express the cultural struggles and triumphs of Black Americans. Kerlin's scholarly rigor ensures that his analysis is both insightful and accessible, making the work a vital resource for students and enthusiasts alike.

I highly recommend *Negro Poets and Their Poems* to readers seeking a deeper understanding of African American literature and its profound influence on American culture. This anthology is not only a celebration of poetic artistry but also an essential text for anyone interested in the intersections of race, identity, and literary expression. Kerlin's work urges us to engage with the past while recognizing its continuing relevance in contemporary discussions of race and art.
