Just Enough Requirements Management Alan Mark Davis, 2013 This is the digital version of the printed book Copyright 2005 If you develop software without understanding the requirements you are wasting your time On the other hand if a project spends too much time trying to understand the requirements it will end up late and over budget And products that are created by such projects can be just as unsuccessful as those that fail to meet the basic requirements Instead every company must make a reasonable trade off between what is required and what time and resources are available Finding the right balance for your project may depend on many factors including the corporate culture the time to market pressure and the criticality of the application That is why requirements management gathering requirements identifying the right ones to satisfy and documenting them is essential *Just Enough Requirements Management* shows you how to discover prune and document requirements when you are subjected to tight schedule constraints You will apply just enough process to minimize

risks while still achieving desired outcomes You ll determine how many requirements are just enough to satisfy your customers while still meeting your goals for schedule budget and resources If your project has insufficient resources to satisfy all the requirements of your customers you must read Just Enough Requirements Management **Computerworld** ,1989-10-16 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide Computerworld s award winning Web site Computerworld com twice monthly publication focused conference series and custom research form the hub of the world s largest global IT media network **Air-Cargo Logistics** Mr. Rohit Manglik,2024-03-15 EduGorilla Publication is a trusted name in the education sector committed to empowering learners with high quality study materials and resources Specializing in competitive exams and academic support EduGorilla provides comprehensive and well structured content tailored to meet the needs of students across various streams and levels
