

## THE 3<sup>ND</sup> TERM ENGLISH TEST

### PART ONE: READING (15pts)

A/ Comprehension (07pts)    Read the text carefully then do the activities.

Most human beings seem to be quite unaware that the small blue planet on which we live is very fragile. Despite warnings, we continue to inflict irreversible damage on it.

The atmosphere, our water resources, the soil, even our food, is all contaminated largely as a result of our own actions. We create deserts and create floods by destroying our forests. Our homes and workplaces are polluted by tobacco we smoke, by harmful particles from the materials we use and the emanation toxic gases. We can no longer afford to ignore the warnings we are given by our scientists. If we don't want to condemn our children to a life of peril, it is time for us to reflect upon the consequences of our daily actions.

Once, the atmosphere was pure. Now the quantity of polluting gases emitted into the atmosphere exceeds nature's capacity to absorb them. The equilibrium is broken and we are threatened by an ever lengthening list of perils: the green house effect, the gap in the ozone layer, climatic change, a rise in the sea level.
