**Alienology** Fred DeRuvo, 2011-06-03 As if it is not enough that there are wars and rumors of wars earthquakes tsunamis and more weird weather humanity seems to have a growing preoccupation with the world of aliens Any numbers of movies today include the topic of either angels aliens or alternative dimensions Because our world seems to have gotten smaller due to technology it is as if everyone senses we are outgrowing this planet Something big is on the verge of occurring Because one country cannot sneeze without all other countries knowing about it the natural propensity is too gaze to the skies for answers and more room After all history is replete with references to aliens as well as other dimensions Here in America alien abductions are said to go back to the 40s and possibly even earlier Many are coming round to conclude

that the skies or at least other dimensions within the skies that are visible contain the answers we cannot yet fully see Even some evolutionists are now beginning to question Darwin's theories preferring instead to look to the heavens as the answer to how life formed on this planet However rather than concede that God Himself may be in fact be the Author of life these same individuals prefer to believe that alien life forms seeded life on this planet There has been a growing spate of movies and books which seem to give credence to the growing belief that as human beings our life on this planet was graciously bestowed on us by higher beings ascended masters or just plain aliens Their job has been to help us through the evolutionary process in order that what they have created does not become extinct Join Fred as he explores the possibilities that seem to be permeating society at an astounding rate Aliens Angels Inter dimensions

*Ancient Aliens and Secret Societies* Mike Bara,2015-03-17 Did ancient visitors of extraterrestrial origin come to Earth long long ago and fashion man in their own image Did they then lift the human race out of the ashes of a great global catastrophe around 10 500 BC Were the science and secrets that they taught the ancients intended to be a guide for all humanity to the present era Was this crucial information about our future and our true past hijacked by secretive cabals some with bad intent and some with altruistic designs who have held these secrets over the millennia New York Times bestselling author Mike Bara says the answer to each of these questions is yes He examines ancient documents including the Bible to delve into the true

story of the beginnings of mankind He establishes the reality of the major catastrophe that jolted the human race and traces the history of secret societies from the priesthood of Amun in Egypt to the Templars in Jerusalem and the Scottish Rite Freemasons He shows how the spiritual wisdom and scientific knowledge the ETs sought to bestow on all humanity were kept by these secret societies for their own benefit The influence of these sects and their extraterrestrial ties are said to be the stuff of myth but Bara will show readers that this influence is all too real extending even into the political arena He has a very interesting take on the Kennedy assassination Bara also reveals the true origins of NASA and exposes the bizarre triad of secret societies in control of that agency since its inception In the end Bara shows how NASA is manipulating the space program to fulfill occult purposes which may lead to our meeting the very ETs we have been inextricably linked with since the beginning
