What Would Steve Jobs Do? How the Steve Jobs Way Can Inspire Anyone to Think Differently and Win Peter Sander, 2011-11-08 Lead and Succeed Like the World's Greatest Business Innovator There's no accounting for Steve Jobs's mind. He just didn't think the way the rest of the world does. Regarded by many as the most innovative and influential business leader of our time, Jobs was a visionary beyond compare. He was why Apple is Apple and everyone else is everyone else. We can't transform ourselves into Steve Jobs. How he put his ideas into action, however, was systematic, efficient, focused, and smart. And this, you can do. *What Would Steve Jobs Do?* presents the six-part business model Jobs applied to make Apple the most valuable publicly traded manufacturing corporation in the world and the global model for business excellence. While the results of this model can be profound, each step is something you can easily focus on with clarity and purpose. Customer: Understand your customers so well that you know what they want more than they do. Vision: Don't stop thinking at new product synthesis; your ideas, products, and technologies around a specific game-changing customer issue. Culture: Create an environment filled with people who consider can't a bad word. Product Approach: your product as something that can change the world, not just something to beat the competition or get a job done. Message: Deliver a message so compelling that it becomes an extension of the product itself. Personal Brand: Make people think, constancy, promise, and trust when they think of you. Steve Jobs was a true original. What we've all learned from him is incalculable. And what we can continue to learn from him will shape the world. Transform your organization, recast your future, and do your part to redefine our world using the wisdom and foresight of the greatest business sage in generations. *The Business Wisdom of Steve Jobs* Alan Ken Thomas, 2011-10-14 Steve Jobs, CEO of Apple Inc., was truly one of this generation's most innovative and forward-thinking entrepreneurs. Apple, under his vision and direction, changed the way people interact with each other and think about technology. Known as much for his genius as his privacy, the advice and knowledge he did share with the world gives exclusive insight into the most important man of the past century. Your time is limited, so don't waste it living someone else's life. Don't be trapped by dogma, which is living with the results of other people's thinking. We have always been shameless about stealing great ideas. The cure for Apple is not cost-cutting. The cure for Apple is to innovate its way out of its current predicament. Remembering that I'll be dead soon is the most important tool I've ever encountered to help me make the big choices in life. Because almost everything, all external expectations, all pride, all fear of embarrassment or failure, these things just fall away in the face of death, leaving only what is truly important.
