Power, Politics, Law Radhika Withana, 2008 This book hypothesises that an ILI perspective offers a better explanation of the law State behaviour relationship during international crises than rival explanations grounded in positivism realism or functionalism Four case studies of State behaviour of the US the Soviet Union and the PRC during the Korean War 1950 1953 of the US and UK during the Suez crisis 1956 of the US and the Soviet Union during the Cuban Missile Crisis 1962 and of the US and an alliance of Latin American States during the Dominican Republic crisis 1965 are used to test the hypothesis The findings confirm the greater explanatory efficacy of ILI and demonstrate that the significance of international law to foreign policy decision making during international crises is more than that of deterring the use of force as is assumed by rival theoretical

approaches grounded in a rule book image of international law Back cover On Conditions of Decision Making Risto Volanen,1977 Government Controlled Enterprises Renato Mazzolini,1979 Monograph on foreign investment decision making activities of public enterprises in EC countries based on a survey of 123 firms analyses external and internal influences on strategic and policy formulation and covers financial policy the roles of top management government administrators trade union leaders etc Bibliography pp 383 to 391 diagrams references and statistical tables Vikalpa,1994 **Power in the City** Marion Orr,Valerie C. Johnson,2008 A collection of thirteen essays considered classics in the field of urban politics from leading scholar Clarence Stone with new essays by the editors and by Stone himself that contextualize the impact of his previous works and suggest new directions for researchers The Politics of Urban Development Clarence Nathan Stone,Heywood T. Sanders,1987 In the past twenty years the study of urban politics has shifted from a predominant concern with political culture and ethos to a preoccupation with political economy particularly that of urban development Urban scholars have come to recognize that cities are shaped by forces beyond their boundaries From that focus have emerged the views that cities are clearly engaged in economic competition that market processes are shaped by national policy decisions sometimes intentionally and sometimes inadvertently and that the costs and benefits of economic growth are unevenly distributed But what else needs to be said about the policies and politics of urban development To supplement prevailing theories The Politics of Urban Development argues that the role of local actors in making development decisions merits closer study Whatever the structural constraints politics still matters Collectively the essays provide ample evidence that local government officials and other community actors do not simply follow the imperatives that derive from the national political economy they are able to assert a significant degree of influence over the shared destiny of an urban population The impact of the collection is to heighten awareness of local political practices and of how and why they make a difference The Publishers Weekly ,1972 *Power, Politics, and Participation in the Firm* Steve Minett,1992 This book aims to promote the idea of the firm as a micro political system in which internal distribution of power is crucial in decision making The book is divided into two main parts general theory of determinants of distribution of power and examination of general theory in terms of implementation of industrial democracy first in general and then in the case of Sweden using a database of 455 Swedish companies **The Current State of Business Disciplines: Management, II** Shri Bhagwan Dahiya,2000 *The Micropolitics of Special Education in Three Minnesota School Districts* Loren William Gratz,1998 *Democratizing Southern Africa* Heribert Adam,Kogila Moodley,Canadian Institute for International Peace and Security,1992 This analysis sketches the historical record of Canadian policy toward South Africa It outlines some of the controversies and speculates about the functions and background of a surprisingly activist policy by a conservative government It probes the competing political forces in the ongoing South African transition assesses the prospect of democratic success or failure and describes the ambiguous impact of Canadian efforts on the recipients in the white and

black communities It also reflects on possible changes new foci or even withdrawal of Canadian involvement from the Southern Africa region of the post apartheid era **Organizational Strategy and Change** Johannes M. Pennings, 1985
