**Pure Human** Gregg Braden, 2025-01-28 In an age where technologies such as AI threaten to supplant human intelligence an award winning scientist offers a radical new view of our innate human technology and what we are truly capable of There are rare moments in time when we make choices that irreversibly change the world and our lives forever Today is one of those moments Scientists engineers and philosophers alike warn us that without a radical shift in our thinking we are on track to be the last generation of pure humans that the world will know Within a single generation we will devolve into a hybrid species of synthetic bodies Artificial Intelligence AI and computer chips that limit our ability to think to love and to adapt to the conditions of the emerging world in a healthy way In doing so we will also lose our capacity for emotion empathy intimacy and forgiveness the very qualities that we value and cherish in our humanness The question that we face is simple Do we love ourselves enough to preserve the gift of our humanness Our answer is based upon the way we have been taught to think of ourselves This book is a compelling journey of self discovery that will catapult you beyond conventional thinking when it comes to your origins your limits and most importantly the abilities that have been hidden from you for centuries and the extraordinary potential that awaits as you embrace them **Fractal Time** Gregg

Braden, 2009-03-15 In this compelling exploration of life Gregg Braden merges the modern discoveries of nature's patterns fractals with the ancient view of a cyclic universe The result is a powerful model of time fractal time and a realistic window into what we can expect for the mysterious year 2012 and beyond Applying fractal time to the history of the world and life he proposes that everything from the war and peace between nations to the patterns of human relationships mirror the returning cycles of our past As each cycle repeats it carries a more powerful amplified version of itself The key If you know where to look in the past you know what to expect when the same conditions return in the present and future For the first time in print the Time Code Calculator gives you the tool to do just that Through easy to understand science and step by step instructions discover for yourself How the conditions for 2012 have occurred in the past and what we can expect when they repeat The hot dates that hold the greatest threats of war and greatest opportunities for peace as well as economic cycles such as the stockmarket collapse of 2008 How Earth's location in space triggers cycles of spiritual growth for humans Your personal Time Codes for the key events of business relationships and change in your life How each cycle carries a window of opportunity a choice point that allows us to select a new outcome for the returning pattern What the 1999 ice cores from Antarctica reveal about past cycles of climate global warming Earth's protective magnetic fields and what these things mean for us today **The Divine Matrix** Gregg Braden, 2010 THE DIVINE MATRIX Are the miracles that we see in the quantum world actually showing us our greatest possibilities rather than our scientific limits Could the spontaneous healing of disease an instant connection with everyone and everything and even time travel be our true heritage in the universe There is a place where all things begin the place of pure energy that simply is In this quantum incubator for reality everything is possible In

1944 Max Planck the father of quantum theory shocked the world by saying that this matrix is where the birth of stars the DNA of life and everything between originates Recent discoveries reveal dramatic evidence that Planck s matrix The Divine Matrix is real It is this missing link in our understanding that provides the container for the universe the bridge between our imagination and our reality and the mirror in our world for what we create in our beliefs To unleash the power of this matrix in our lives we must understand how it works and speak the language that it recognizes For more than 20 years Gregg Braden a former senior aerospace computer systems designer has searched for the understanding to do just that From the remote monasteries of Egypt Peru and Tibet to the forgotten texts that were edited by the early Christian church the secret of the Divine Matrix was left in the coded language of our most cherished traditions It is verified in today s science In this paradigm shattering book Gregg shares what he s found Through 20 keys of conscious creation we re shown how to translate the miracles of our imagination into what is real in our lives With easy to understand science and real life stories Gregg shows us that we re limited only by our beliefs and what we once believed is about to change Deep Truth Gregg Braden,2011-10-15 Deep Truth reveals new discoveries that change the way we think about everything from our personal relationships to civilization itself When the facts become clear our choices become obvious THE CRISIS Best selling author and visionary scientist Gregg Braden suggests that the hottest topics that divide us as families cultures and nations seemingly disparate issues such as war terrorism abortion genocide poverty economic collapse climate change and nuclear threats are actually related They all stem from a worldview based upon the false assumptions of an incomplete science THE HISTORY The obsolete beliefs of our modern worldview have brought us to the brink of disaster and the loss of all that we cherish as a civilization Our reluctance to accept new discoveries about our relationship to the earth one another and our ancient past keeps us locked into the thinking that has led to the crises threatening our lives today THE FACTS The scientific method allows for and expects new information to be revealed and assimilated into our existing beliefs It s the updating of scientific knowledge with the new facts from new discoveries that is the key to keeping science honest current and meaningful To continue teaching science that is not supported by the new discoveries ones based upon accepted scientific methods is not in fact scientific But this is precisely what we see happening in traditional textbooks classrooms and the media today THE OPPORTUNITY Explore for yourself the discoveries that change 150 years of scientific beliefs yet are still not reflected in mainstream thinking including evidence of advanced near ice age civilizations the origin of and reasons for war in our ancient past and why it may become obsolete in our time and the false assumptions of human evolution and of the Darwinian theory Let the strongest live and the weakest die and how this plays out in corporations societies and warfare today **A critial review about "The Divine Matrix" by Gregg Braden** Felix Ale,2015-02-09 Literature Review from the year 2014 in the subject American Studies Literature grade A Atlantic International University course PhD JOURNALISM language English abstract Gregg Braden s book The Divine Matrix that seeks to justify and offer meaning to the origin of

both the tangible and intangible things of the universe offers one of the most elusive and divisive evidence The origin of the web of energy in the universe has for many years been a bone of contention between the church and science From the time of Galileo to the modern times marked with technological advancements to carry out research humanity has failed spectacularly to comprehensively and neutrally define their origin and everything around them *The Spontaneous Healing of Belief* Gregg Braden,2008-04-01 From the New York Times bestselling author of *The Divine Matrix* and *Resilience from the Heart* What would it mean to discover that everything from the DNA of life to the future of our world is based upon a simple Reality Code one that we can change and upgrade by choice New revelations in physics and biology suggest that we re about to find out A growing body of scientific evidence suggests that our universe works like a Consciousness Computer Rather than the number codes of typical software our Consciousness Computer uses a language that we all have yet are only beginning to understand Life s reality code is based in the language of human emotion and focused belief Knowing that belief is our reality maker the way we think of ourselves and our world is now more important than ever For us to change the beliefs that have led to war disease and the failed careers and relationships of our past we need a reason to see things differently Our ancestors used miracles to change what they believed Today we use science The Spontaneous Healing of Belief offers us both the miracles that open the door to a powerful new way of seeing the world and the science that tells us why the miracles are possible revealing why we are not limited by the laws of physics and biology as we know them today Once we become aware of the paradigm shattering discoveries and true life miracles we must think of ourselves differently And that difference is where the spontaneous healing of belief begins **Light on the path to spiritual perfection - Book VI** Ray del Sole,2010-05-02 For the genuine spiritual seeker Collection of universal spiritual topics techniques questions answers in seven books derived from more than 16 years of spiritual practice Book VI table of contents The principle of darkness Mastership Love as self defense Quabbalistic formulas and numbers Secret societies Spiritual brotherhood Introspection soul mirrors Sleepers Karma and Incarnation Healing Psychology JHVH Symbols Psychology Mental perfection Healing techniques Astral body building Clearing technique Quabbalistic wisdom Negative beings And much more 0.0.0.0 Would Our Legacy Survive? Richard Graupner,2012-07-28 The exploration takes us into the realms of a global catastrophe and its aftermath Through the eyes of a now older woman we explore her journey through the many challenges tough decisions and attacks on mans moral and ethical fibre in the battle for survival in the aftermath It provokes us to explore many questions not least of which is how we ourselves might react If we were to be honest with ourselves the answers may be startling indeed Woven within this journey through time are references to aspects of life today and how in the eyes of someone in the aftermath these appear shallow and inconsequential The alternative viewpoints proposed working with wisdom seemingly lost to us in our current frenetic cluttered lifestyles will assist us in improving our free thinking evaluation of life today We explore too how the ancient civilizations and their knowledge simply vanished providing some insight into

this phenomenon Could this also occur with the global civilization we have currently Surely not you might say It appears however that we may be a far more fragile species than we would like to believe with sadly a potentially very thin veneer of modern humanitarian practices

**The Divine Matrix by Gregg Braden. A Critical Book Analysis** Jean Cédric Obame Emame, 2018-09-10 Seminar paper from the year 2016 in the subject Literature Modern Literature grade A Atlantic International University course SEMINAR PERSONAL DEVELOPMENT I language English abstract In his book Braden is referring to the universal field of energy that the father of quantum physics Max Planck a German theoretical physicist whose work on quantum theory won him the Nobel Prize in Physics in 1918 describes as a field that connects everything He calls that field of energy the Divine Matrix Now what is the Divine Matrix According to the author the Matrix is a universal energy that affects our reality he uses quantum physics to explain it Braden 2007 p 52 mentioned that the Divine Matrix is everywhere at all time and that it is also the mind of the universe Besides the following book s review will help us understand how the Matrix works in our everyday life Equally important before the reading of this book I would experience the kind of things that I somewhat thought to be the unique person on this planet to ever experience Most importantly I was incapable of explaining them It is true that I would as well question people around me if they ever experienced some of them The answer was yes But for the other experiences I did not even dare to ask someone else The very purpose of this dissertation is to discuss some of the topics Braden tackles in his book Because he talks about many themes nevertheless I have selected those I thought to actually be highly relevant Accordingly I will discuss four 04 subjects the connection which exists between everything within the Matrix the origins of the universe is also another discussion of my dissertation In addition to that I shall debate bilocation and the power of imagination On the latter Braden 2007 p 55 talks about the bridge between imagination and reality Why do I term it as power of imagination Because the author even if he does not use the expression power conversely demonstrates that imagination in fact has a power By utilizing the term bridge he means imagination is not far from reality given that as human beings and being part of the Divine Matrix we ourselves can create our own reality The four above issues will be discussed in details

*Quantum Science* Robson Rodovalho, 2020-07-22 This book teaches how to think about science in a unified fashion and its connection with spirituality Bishop Robson Rodovalho shows how faith and the intangible intermingle and complement each other to become one thing in the end Based on the poetic premise Nature makes no miracles it makes revelations of Carlos Drummond de Andrade and Rodovalho reveals in this book that besides the chemical connection with the Earth and with the atomic universe we have a connection with God the complete the supernatural
