This bestselling book has been extensively revised to provide in-depth coverage of the 2008 presidential and congressional elections, President George W. Bush's second administration, and the 110th Congress, continued controversies related to the wars in Iraq and Afghanistan, and the war on terrorism, and domestic concerns related to rising gas and food prices and the subprime mortgage crisis. Karl W. Ryavec, 2005 This unique study provides an original, nitty-gritty view of the true nature and operation of Russia's state bureaucracy from the imperial period to the present, including the Putin presidency. The only book-length exploration of the problems and deficiencies of Russian bureaucracy since tsarist times, this detailed work sheds important new light on Russian public administration, an often overlooked but key barrier to Russian normalization and democratization. **American Government** Karen J.
