Audretsch, 2024-06-04 Far reaching technological developments are making a deep impact on societies and economic environments worldwide With the emergence of new digital infrastructures such as artificial intelligence fintech data analytics robotics and nanotech new creative industries still in a state of flux have arisen while others have disappeared at least in their traditional form The intermixing of traditional and new technologies has led to a redrawing of boundaries and an extension of the limits of entrepreneurship out towards industries with hitherto high barriers to entry due to regulatory technological or structural factors These external enablers have led to a democratization of entrepreneurship and a lessening of the obstacles to starting up a company by reducing or eliminating the difficulties inherent in the entrepreneurial phenomenon in its classical configuration such as high resource intensity uncertainty limited time or information asymmetry The De Gruyter Handbook of Digital Entrepreneurship examines the impact of these

technological disruptions not only using the existing paradigms but also by re examining our very conception of the entrepreneurial phenomenon in terms of its evolving nature and shifting contours The contributions to this handbook promote the emergence of new theories and conceptions of the entrepreneurial opportunity and process that more fully reflect the realities of the new environment we are living in They will benefit both academics aiming to familiarize themselves with the state of research and theory within topics and subtopics in digital entrepreneurship as well as practicing entrepreneurs and managers aiming to acquaint themselves with leading edge practices and insights in digital entrepreneurship

De Gruyter Handbook of Media Technology and Innovation Richard A. Gershon, 2025-01-27 The De Gruyter Handbook of Media Technology and Innovation brings together scholars from around the world to provide key insights on emerging technology trends and issues related to the fields of media management information technology product design planning and digital lifestyle This handbook is about the power of good ideas It s about those business enterprises government planners educators and entrepreneurs that have harnessed the power of good ideas to become real difference makers in the world we live in Keeping pace with fast paced technology change requires ongoing assessment and reassessment of the media management and technology fields to address important questions and emerging issues A major premise of this book is that given the complex and ever changing state of media technology we have a responsibility and obligation to engage in a broader interdisciplinary dialogue whose purpose is to understand the current and future state of media technology and innovation as well as to appreciate the social impact that such technologies have on business education and the general public Forecasting the future as any weatherperson or stock broker can tell you is a risky business But in this book we use the phrase the creative next step as a way to talk about the future and what we can expect in terms of the opportunities and challenges going forward

Gen Z at Work in Central and Eastern Europe Elżbieta Wąsowicz-Zaborek, Adam Oleksiuk, 2025-11-25 In an era of rapid transformation in the world of work Generation Z emerges as a transformative force reshaping traditional employment models with their distinct preferences and values As the first fully digital native generation they seek flexibility remote work opportunities and a healthy work life balance This book examines these transformative trends in the context of Central and Eastern Europe focusing on three diverse and representative countries Poland Czechia and Estonia Together these nations illustrate the region s economic diversity and innovation offering insights into how local labour markets are responding to the expectations of this new workforce Grounded in original research including interviews and case studies the book presents quantitative analysis to explore Gen Z s preferences attitudes and aspirations The findings shed light on demographic variations such as gender and place of residence and examine how these factors influence work preferences across the three countries Beyond identifying trends the book offers practical recommendations addressing the challenges and opportunities posed by generational change The narrative unfolds through three interconnected themes the socio economic dynamics of Poland Czechia and Estonia the

comparative analysis of survey findings highlighting generational similarities and differences and broader implications for industries organizational strategies and regional economies Special attention is given to emerging work models such as work from anywhere WFA and workation hubs in Europe emphasizing their role in shaping regional development and economic policy The book bridges the gap between academic research and real world application making it an essential resource for scholars researchers advanced students and policymakers Chapters 6 and 7 of this book are freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

PROPerTy TECHnology - Insights from the Joint Research Partnership on Digital Transformation in Real Estate and Construction Chiara Tagliaro, Alice Paola Pomè, Andrea Ciaramella, Stefano Bellintani, 2025-06-11 The book presents insights from over five years of research by the Real Estate Center at the Department of Architecture Built environment and Construction engineering ABC of Politecnico di Milano within the Italian PropTech Network initiative It explores how digital technology is addressing key challenges in the built environment such as climate change urbanization rising costs and demographic shifts Traditionally slow to adapt the real estate sector must embrace innovation to meet urgent Sustainable Development Goals Focusing on digitalization the book analyzes tools and technologies that can transform property management enhance market processes and add value for stakeholders It provides a broad literature review defines PropTech and examines its role in reshaping the construction and real estate industry Case studies illustrate the sector's ongoing transformation while critically evaluating different PropTech applications The book contributes to academic debate and supports real estate professionals navigating digital transformation by systematizing current knowledge It also highlights potential risks emphasizing the need for further research to ensure sustainable and informed innovation

The Oxford Handbook of Identities in Organizations Andrew D. Brown, 2020-01-09 Conceived as the meanings that individuals attach to their selves a substantial stockpile of theory related to identities accumulated across the arts social sciences and humanities over many decades continues to nourish contemporary research on self identities in organizations In times which are more reflexive narcissistic and fluid the identities of participants in organizations are increasingly less fixed and less certain making identity issues both more salient and more interesting Particular attention has been given to processes of identity construction often styled identity work Research has focused on how why and when such processes occur and their implications for organizing and individual group and organizational outcomes This has resulted in a burgeoning stream of research from discursive dramaturgical symbolic socio cognitive and psychodynamic perspectives that most often casts individuals efforts to fabricate identities as intentional relational and consequential Seemingly intractable debates centred on the nature of identities their relative stability or fluidity whether they are best regarded as coherent or fractured positive or not and how they are fabricated within relations of power combined with other conceptual issues continue to invigorate the field However these debates have also led to some scepticism regarding the future potential of identities research Yet as the chapters in this Handbook demonstrate there are considerable grounds for optimism that identity as root metaphor nexus concept and means to bridge levels of analysis has significant potential to generate multiple compelling streams of theorizing in organization and management studies

Next-Level Digital Nomad Maria Surma Manka, 2018-06-23 The stereotype of a digital nomad is someone young unmarried no kids and no mortgage It s time to rethink that and take digital nomading to the next level Maria Surma Manka wanted to live and work abroad as a digital nomad temporarily without uprooting her entire life No selling the house no homeschooling the kids She and her spouse had to keep their day jobs But she couldn t find any good resources to help guide a typical family on this adventure So she did it herself and the result was a workation a blend of work vacation that allowed her family to become temporary digital nomads So far they ve workationed in Spain New Zealand and the UK Next Level Digital Nomad is the resource Maria wishes she d had A practical and tactical how to guide that kick starts your adventure and saves you dozens of hours of planning Guidance for thinking through the trickiest questions like asking your employer to work remotely preparing for the kids absence from school and where to find a place to work while traveling Loads of resources and ideas for creating your own workation Step by step worksheets for efficient planning Next Level Digital Nomad will give you the real world tools to live like a digital nomad Even with real world responsibilities
