Dr Vinod Walwante

Expert Chatgpt Prompts For Beginners For Students:

Learning with Generative Artificial Intelligence Yizhou Fan, 2025-06-20 This book delves into the core of education's digital transformation presenting a thorough and empirical examination of generative artificial intelligence GenAI's impact beyond the theoretical and fragmented insights prevalent in current discourse Drawing from peer reviewed and extensive empirical studies the contributors aim to unveil the multifaceted effects of GenAI particularly ChatGPT on learning They navigate through topics of interaction assessment emotion effect and efficiency meta cognition and ethics offering a comprehensive exploration of GenAI's educational implications This book presents a closed loop of learning theory multimodal data and learning analytics technology Furthermore this book builds and proposes core conceptual models for future learning and identifies potential research directions This book will serve as a foundational reference for educators seeking innovative learning and teaching methods and for researchers and technologists who seek to push the boundaries of educational technology and related areas

Optimal Physical Activity across the Lifespan for People of All Abilities Ronald F. Zernicke ,David Arthur Hart, Humans evolved to be mobile within the boundary conditions of Earth and many biological and physiologic systems depend on mechanical loading to maintain integrity during growth and maturation during skeletal maturity and during the aging process These systems subscribe to the use it or lose it principle and thus require continual use to maintain integrity Given that premise considerable basic and clinical research efforts have been directed at optimizing the effectiveness and positive impact of exercise on sports performance and the well being of those with intact systems However those with disabilities or compromised abilities also benefit from exercise protocols and there exists a need to focus attention on these populations as well Given the myriad of biological and physiological systems that benefit from exercise and mechanical loading there is a need for all humans of varying abilities to not only maintain the integrity of their health but to attempt to optimize it recognizing that optimizing each person's health across the stages of the life cycle may require different exercise protocols dependent on stage of life sex genetics and other individualized variables For those with physical disabilities embracing and maintaining such exercise protocols may be challenging but expanded research translation of findings and integration of the outcomes into everyday life to enhance the health and well being of this significant population are needed going forward

Harnessing AI for Multigenerational English Language Learning Giannikas, Christina Nicole, 2025-06-25 As the world becomes interconnected the need for effective English language learning across diverse age groups has never been more crucial With the rise of artificial intelligence AI comes the opportunity to revolutionize how English is taught and learned in multigenerational contexts AI powered tools like personalized learning platforms language apps and speech recognition software can adapt to the individual needs of learners This ability to tailor content to different learning styles and paces makes AI an invaluable resource in fostering lifelong language acquisition Further exploration into how AI is enhancing multigenerational English language learning may help bridge generational gaps create inclusive

Artificial Intelligence in Vocational Education and Training Selena Chan,2025-05-30 This book details a series of studies across several levels of learning and vocational education and training VET discipline areas In the main the advent of natural language AI chatbots exemplified by ChatGPT has caused the educational sector to take on a defensive stance Both schools and the higher education sector are engaged in an on going arms race to prevent learners from using AI to augment assessments Therefore there has been a

focus on plagiarism prevention rather than to better understand the potentialities for utilizing AI to support better learning. This book explores the collaborative development and planning between educational developers, learning designers, and teachers to design learning activities which could leverage off various artificial intelligence AI platforms. In doing so, support is provided for effective learning to be undertaken with an emphasis on the learning and application of critical thinking skills. The studies presented through the volume describe the integration of AI literacy to support learners in evaluating the relevance and efficacy of AI tools and platforms and to understand how to best utilize these for specific purposes. This book also synthesizes a framework for the introduction, selection, and implementation of AI into the VET curriculum. It showcases recommendations and guidelines to inform the future integration of AI tools/platforms into the VET curriculum. **ChatGPT**
