Generating an online passive income won't happen overnight and takes a lot of hard work, but going through the process is completely worth it, and having an exact plan of action is the ONLY way to ensure success. Let me put it this way: if you were offered no pay for six months for 40 hours of work per week, but after those six months you got 5,000 per month for the rest of your life, would that be worth it to you? If that idea isn't unbelievably exciting to you, then this isn't the business for you. This isn't a get-rich-quick scheme. This is a business. Except with this business, instead of trading your time for money like most jobs, you are investing your time. You work hard now and continue to reap the benefits indefinitely. Building an online business takes a lot of work and a lot of patience, but the rewards can be amazing. That's the kind of business that I teach you in this ebook. Here's what you will learn: 1 The Truth Behind the Internet and making money online 2 The only ways you can truly make money online 3 Blogging What is blogging 4 Affiliate Marketing What is Affiliate Marketing 5 Freelancing what is freelancing and much more things you will learn

Affiliate Marketing For Beginners Tim Murphy, 2020-12-29 If you were to ask a random user of the Internet what he or she thought Affiliate Marketing was, he or she would likely claim that it was a way of making money online as an intermediary. Here, people make a commission from a sale or a referral when a visitor to his or her site clicks on a link that directs him or her to a product or page online. However, as much as there is a lot of truth there, Affiliate Marketing does not only have to take place online. For example, affiliate marketing is also where a plumber gives a client a discount for referring him or her to a new client. It is the same concept. This kind of marketing happens a lot in the real world, but people do not trace or coordinate it as much as is the case with online marketing. Business owners can ask their customers how they came to know about them in an effort to learn about their client base, but they cannot get as much information as they would be using online tracking. The growing online market has made this type of marketing more popular and profitable. It has also made it easier to grow and expand whatever type of business an individual is in with the help of numerous professional marketers who will not necessarily appear on their payroll. Therefore, while its history started long before the invention of the Internet, the Internet has transformed it and made it widely available to the masses. You will start by learning all about the ins and outs of affiliate marketing and what you need to get your feet wet in the marketing world. You will then learn about the importance of choosing the right niche and how to find one that will provide you with a sustainable passive income stream for

years to come From there you will learn the key steps to creating a website that will attract the right type of users as well as the importance of SEO and how to ensure that your new website shows up in as many different sets of search results as possible Finally you will learn just what it takes to create the type of quality content that ensures people keeping back for more month after month and year after year Every effort was made to ensure it is full of as much useful information as possible please enjoy
