provide you with more freedom and flexibility while still bringing in some money If you want to work at home then this is the technology which is enabling the change and it is allowing nomads to work from home Companies are recognising the potential of this new method of working and the first areas to embrace the new way of working are the legal ones However it is not just the legal firms and public sector which are looking to employment technology in order to cut costs Almost every type of industry is looking at using technology in order to lower costs and in this way increase profits For example restaurants are using recruitment technology in order to lower salaries and costs Until a few years ago when every restaurant had a fixed cost of hiring training and maintenance the vast majority of restaurants were able to pay 100% of their employees salaries This meant that it was possible to pay a manager less than a waiter and save money However with the inclusion of recruitment technology the cost of hiring employees is being cut by up to 50% This does not necessarily mean that the amount of profit is increased but employees are able to be assigned to different tasks meaning that they spend less time in front of customers thus increasing their profits Interested to know more Then Scroll up Click on Buy now with 1 Click and Get Your Copy Now [The Profitable Content System](#) Meera Kothand,2019-09-19 Are you scrambling to fill your content pipeline week after week with little to show for it in terms of results No subscribers No brand authority No shares Do you wish you had a yearly plan for your content based around your products and services one that helps you create content that doesn't just languish on your blog's virtual shelves but that actually brings you sales Do you desperately desire a content workflow that doesn't seem crazy overwhelming If you think your content does nothing for you and that it's a waste of time If you've been leaving the return on investment from the time you've spent creating content to chance or luck then you could use the Profitable Content System If you offer products or services and want to create content that directly drives sales this book will be right up your alley Here's what's packed in this how to guide How to strategically create an array of content pieces that make your products and services fly off your virtual shelves This ONE framework is all you need to seamlessly move your subscriber through his/her purchasing journey The 8 step system that brought in 14 000 in sales and how you can replicate that for your own business Why content repurposing has NEVER worked for you and the minimum viable repurposing method that will change that Grasp the ins and outs of how to map out and launch your own profitable content campaigns to skyrocket your business no more confusion just an actionable plan for results Marketing blueprints that you can follow examples for service based coaching and digital product businesses Imagine delivering the right type of content that not only delights your audience but also leads to your Stripe and PayPal accounts pinging with joy Imagine having the confidence that comes from knowing that every month will be a solid four or five figure month even when you do minimum viable promotions That's the power of a profit driven method of content planning It'll radically change how you approach content and plan your business Ready to discover a system that supercharges the content you create and ties it directly to revenue Then scroll to the top and click or tap Buy Now You don't just want random content pieces You want sales You'll
