**Structural Racism** Stephen Menendian, 2025-06-30 This book explains how racial inequality in the United States is produced and perpetuated and what should be done about it. It develops the elusive concept of structural racism presenting a precise definition that is clear and comprehensible and illustrates how it operates methodically and rigorously. Many other books are long on problems and short on solutions whereas this book develops the key principles that must ground a structural reform agenda and then presents a broad ranging set of interventions organized around ten themes that will reduce racial disparities while expanding opportunity for all. Unlike most books on race which focus on a particular issue or sector this book is comprehensive in its scope encompassing the vital systems that shape racial inequality in contemporary American society from education and public schools to income and wealth disparities to housing and health care to policing and the criminal justice system. As such this book is the ideal text for readers seeking to learn more about structural racial inequality in society how it came to be that way and what we should do about it while deepening our understanding and challenging many misguided or simplistic prevailing notions. In a time of backlash to racial justice and growing doubts about racial equity initiatives this book is a timely and necessary entry. A must read for advocates students policymakers and researchers alike

**Challenging Formalization in Education and Beyond** Peter Serdyukov, 2022-11-03 Challenging Formalization in Education and Beyond addresses the effects of today's attempts to organize knowledge processes and performance in education particularly in its ever growing digital environments. As on site blended and fully online learning become deeply interdependent secondary and higher education managers and instructors who seek to integrate apply and teach within these formats using standardized rules assessments algorithms and accountability structures may be doing unintended harm to their students. Focusing on students performance health cognition behavior and learning outcomes this book analyses how current trends methods and policies in formalization can be challenged and corrected to ensure high quality education. Scholars educators administrators and designers of traditional asynchronous precision automated and micro learning formats will come away with new insights and pragmatic solutions for engaging students in more active participatory and creative activities
