Black Climates Selina Nwulu,2025-08-28 To want to save the planet a person has to have a sense of belonging in it What would a saved planet look like for a Black collective This book is validating and monumental Courttia Newland Sensitive powerful and necessary Joycelyn Longdon Globally Black people are among the most affected by the climate crisis despite contributing very little to it For a long time the crisis was portrayed as yet another injustice for Black people to care about on top of the day to day oppression they face In Black Climates Selina Nwulu reframes the crisis to encompass our disconnection from each other and the world around us She argues that the root of climate change lies in historical colonial violence and ongoing exploitation making it inherently racist Nwulu former Young People s Laureate for London uses her poetic and skilful voice to directly address Black British readers who have been previously ignored in mainstream environmental conversations She includes interviews with a wide range of creatives and campaigners to explore a variety of subjects including air pollution prison ecology disability justice migration food nature community care and radical imagination This is an essential and empowering read for anyone who wants to fully understand the connections between Blackness and the climate crisis providing the tools to envisage more equitable futures

The Second Machine Age Erik Brynjolfsson,Andrew McAfee,2014-01-13 A New York Times Bestseller A fascinating Thomas L Friedman New York Times look at how digital technology is transforming our work and our lives In recent years Google s autonomous cars have logged thousands of miles on American highways and IBM s Watson trounced the best human Jeopardy players Digital technologies with hardware software and networks at their core will in the near future diagnose diseases more accurately than doctors can apply enormous data sets to transform retailing and accomplish many tasks once considered uniquely human In The Second Machine Age MIT s Erik Brynjolfsson and Andrew McAfee two thinkers at the forefront of their field reveal the forces driving the reinvention of our lives and our economy As the full impact of digital technologies is felt we will realize immense bounty in the form of dazzling personal technology advanced

infrastructure and near boundless access to the cultural items that enrich our lives Amid this bounty will also be wrenching change Professions of all kinds from lawyers to truck drivers will be forever upended Companies will be forced to transform or die Recent economic indicators reflect this shift fewer people are working and wages are falling even as productivity and profits soar Drawing on years of research and up to the minute trends Brynjolfsson and McAfee identify the best strategies for survival and offer a new path to prosperity These include revamping education so that it prepares people for the next economy instead of the last one designing new collaborations that pair brute processing power with human ingenuity and embracing policies that make sense in a radically transformed landscape A fundamentally optimistic book The Second Machine Age alters how we think about issues of technological societal and economic progress *Mother Jones Magazine*

,1989-02 *Mother Jones* is an award winning national magazine widely respected for its groundbreaking investigative reporting and coverage of sustainability and environmental issues **The Entrepreneurial State** Mariana

Mazzucato,2024-02-06 Award winning economist Mariana Mazzucato s famously incisive international bestseller debunking the pervasive myth of the inept state versus an innovative private sector with a new preface by the author According to conventional wisdom innovation is best left to the bold entrepreneurs of the private sector and government should get out of the way But what if that wasn t case What if from the inventions of Silicon Valley to medical breakthroughs the public sector has actually been the most courageous and valuable risk taker of all Critically acclaimed and influential thinker and scholar Mariana Mazzucato argues comprehensively against the myth of a lumbering bureaucratic state versus a dynamic innovative private sector with remarkable original and deep research In a series of case studies from nanotechnology to the emerging green tech of today Mazzucato reveals that the opposite is true the private sector only finds the courage to invest after an entrepreneurial state has made the high risk investments The Entrepreneurial State reveals how every technology that makes the iPhone so smart was actually funded by the government from the Internet and GPS technology to touch screen displays and voice activated Siri In the history of modern capitalism the State has not only fixed market failures but has also actively shaped and created markets In doing so it sometimes wins and sometimes fails Yet by not admitting the State s role in active risk taking we ve created an innovation system where the public sector socializes risks while privatizing reward as Mazzucato controversially argues This bold and provocative book considers how we adopted this dysfunctional dynamic and then how we can overcome it so that economic growth can be not only smart but inclusive as well *U.S. News & World Report* ,1947
