Attachments Lucas Mann,2024-05-06 Lucas Mann turns his attention to tenderness, self reflection and humor to contemporary fatherhood. He looks closely at all the joys, frustrations, subtleties and contradictions within an experience that often goes under-discussed. At once intimate and expansive, Mann chronicles his own life with his young daughter but also looks outward to the cultural and political baggage that surrounds and permeates these everyday experiences. Moving through memoir, lyric essay, literary analysis and pop culture criticism, Attachments treats the subject of fatherhood with the depth, curiosity and vivid emotion that it deserves. Influencers, Online Alliances and Reconciliation in Southeast Europe Ivana Stepanovic,2024-12-09 This book explores the transformative role of social media in fostering reconciliation in the former Yugoslavia, a region still grappling with unresolved conflicts and ethnic divides. Focusing on platforms like YouTube and TikTok, it highlights how Balkan influencers blend personal storytelling with commercial outreach to promote interethnic understanding. The study employs digital ethnography and narrative analysis to reveal the intricate dynamics between human actors and algorithms, uncovering how social media facilitates grassroots reconciliation initiatives. The author critiques traditional reconciliation efforts driven by political elites and emphasises the potential of bottom-up approaches enabled by social media. It presents the concept of algorithmic reconciliation, where social media algorithms inadvertently foster interethnic collaborations and create transnational online communities. By examining the economic and cultural practices of influencers, the book illustrates how digital platforms can serve as modern arenas for peacebuilding. This book is primarily aimed at undergraduates and postgraduates in social history, digital media studies and peace studies but will also be relevant to academics, policymakers and anyone interested in the intersection of technology and social change. **iParent** Neha J Hiranandani,2024-02-05 Born into a digital wonderland, our children are practically mini hackers right from the crib.
