Artificial Intelligence and Social Computing Tareq Z. Ahram, Jay Kalra, Waldemar Karwowski, 2025-07-26

Developing Materials for Innovative Teaching and Sustainable Learning Andrzej Cirocki, Raichle Farrelly, Taylor Sapp, 2024-10-30 This volume features current innovative and effective ways of developing

instructional materials for diverse English Language Teaching (ELT) contexts. It is divided into four sections, each featuring pedagogical materials designed for specific groups of learners. The sections focus on materials for general English, ESP, and EAP, CLIL, and ELT teacher education courses. The chapters, written by experienced educators from around the world, are highly practical and detail the process of designing materials for innovative and sustainable language education. The contributors reflect on their own practice, describe the materials design process, explain the guiding principles, and connect the design process with the local context and educational policies. They also offer practical tips to inspire classroom practitioners to create their own materials, promoting innovative teaching and sustainable learning. Ultimately, their chapters aim to encourage a world where teaching involves creativity and adaptability, leading to transformative learning for both teachers and learners.

Reimagining Intelligent Computer-Assisted Language Education Stevkovska, Marija, Klemenčič, Marijana, Kavaklı Ulutaş, Nurdan, 2024-10-18. Reimagining language education through intelligent technologies and computer assistance marks a shift in how we approach language learning in the digital age. With advancements in artificial intelligence and machine learning, there is potential to transform traditional methods into personalized educational experiences. Intelligent systems now offer adaptive learning pathways that cater to individual proficiency levels, learning styles, and progress rates, making language education more accessible and effective. These technologies beg further exploration to effectively provide real-time feedback and support, creating a more engaging and responsive educational experience. *Reimagining Intelligent Computer-Assisted Language Education* explores fundamental aspects of educational technology to improve language teaching and learning. It reimagines educational practice for language teaching and learning through the integration of educational technology for making the language teaching and learning process more efficient and engaging while improving learner performance and progress. This book covers topics such as artificial intelligence, language education, and academic writing and is a useful resource for education professionals, language learners, computer engineers, academicians, scientists, and researchers.
