Academic researchers want their research to be understood and used by non technical audiences but that requires communication that is more accessible in the form of non technical and shorter summaries The researcher must both signal the quality of the research and ensure that the content is salient by making it more readable AI tools can improve salience however they can also lead to ambiguity in the signal since true effort is then difficult to observe We implement an online factorial experiment providing non technical audiences with a blog on an academic paper and vary the actual author of the blog from the same paper human or ChatGPT and whether respondents are told the blog is written by a human or AI tool Even though AI generated blogs are objectively of higher quality they are rated lower but not if the author is disclosed as AI indicating that signaling is important and can be distorted by AI Use of the blog does not vary by experimental arm The findings suggest that provided disclosure statements are included researchers can potentially use AI to reduce effort costs without compromising signaling or salience Academic researchers want their research to be understood and used by non technical audiences but that requires communication that is more accessible in the form of non technical and shorter summaries The researcher must both signal the quality of the research and ensure that the content is salient by making it more readable AI tools can improve salience however they can also lead to ambiguity in the signal since true effort is then difficult to observe We implement an online factorial experiment providing non technical audiences with a blog on an academic paper and vary the actual author of the blog from the same paper human or ChatGPT and whether respondents are told the blog is written by a human or AI tool Even though AI generated blogs are objectively of higher quality they are rated lower but not if the author is disclosed as AI indicating that signaling is important and can be distorted by AI Use of the blog does not vary by experimental arm The findings suggest that provided disclosure statements are included researchers can potentially use AI to reduce effort costs without compromising signaling or salience [Man-Machine-Environment System Engineering](#) Shengzhao Long, Balbir S. Dhillon, 2023-09-04 Man Machine Environment System Engineering Proceedings of the 23rd Conference on MMESE are an academic showcase of the best papers selected from more than 500 submissions introducing readers to the top research topics and the latest developmental trends in the theory and application of MMESE This proceedings are interdisciplinary studies on the concepts and methods of physiology psychology system engineering computer science environment science management education and other related disciplines Researchers and professionals who study an interdisciplinary subject crossing above disciplines or researchers on MMESE subject will be mainly benefited from this proceedings MMESE primarily focuses on the relationship between Man Machine and Environment studying the optimum combination of man machine environment systems In this system Man refers to working people as the subject in the

workplace e.g. operators, decision makers. Machine is the general name for any object controlled by Man including tools, machinery, computers, systems and technologies, and Environment describes the specific working conditions under which Man and Machine interact e.g. temperature, noise, vibration, hazardous gases etc. The three goals of optimization of the man-machine-environment systems are to ensure safety, efficiency and economy. The integrated and advanced science research topic Man-Machine-Environment System Engineering (MMESE) was first established in China by Professor Shengzhao Long in 1981 with direct support from one of the greatest modern Chinese scientists Xuesen Qian. In a letter to Shengzhao Long from October 22nd 1993, Xuesen Qian wrote: "You have created a very important modern science and technology in China."

Surviving the Anima Conrad Riker, 101-01-01. Is Your Marriage a Battlefield? Defend Your Rights Before the Gynocracy Destroys Them. Do you walk on eggshells as your wife weaponizes unhappiness to justify emotional terrorism? Are feminist-aligned courts, therapists, and cops her third wheel in your marriage? Has your biological right to sexual intimacy been reframed as oppression by woke dogma? Unmask the 7 feminist doctrines your wife's animus uses to gaslight you. Discover why 67% of unhappy divorces are legalized theft and how to fight back. Learn the stoic playbook to neutralize emotional warfare without apologizing. Expose the state's role as a feminist paramilitary force against fathers. Reclaim your biblical constitutional right to lead and why equality is a trap. Defuse hypergamy's nuclear fallout from dead bedrooms to divorce rape. 3 courtroom strategies to bypass gynocratic bias and keep your assets. Why toxic masculinity is a lie women crave but won't admit. If you want to reclaim your rights, your sanity, and your manhood from the Church of Feminism's boot, buy this book today before they ban it.

Digital Personality: A Man Forever Kuldeep Singh Kaswan, Jagjit Singh Dhatteval, Anand Nayyar, 2025-05-27. The book explores the creation of digital personalities that mimic human behaviour and cognition, authored by AI and computer science experts. It covers the technical foundations needed to develop advanced digital personas, focusing on the integration of ontologies, natural language processing (NLP), and dialogue generation. Ontologies are highlighted for their role in structuring knowledge, while NLP techniques are explored for enabling human-like dialogue. The book examines algorithms for sentiment analysis, entity recognition, and context understanding. Dialogue generation is also discussed, from rule-based methods to deep learning, emphasizing seamless user interactions. Ethical concerns such as privacy, bias, and accountability are addressed, advocating for responsible AI practices. This volume is a comprehensive resource for researchers and enthusiasts, offering both theoretical insights and practical guidance on building lifelike digital entities and fostering emotionally engaging human-computer interactions.
