Infrastructure and HealthTech Historically the previous ages brought significant disruption and changes but on a net basis jobs were created wealth was enhanced and the health and security of society improved What will the Augmented Age bring Will robots take our jobs and AI subsume us as inferior intelligences or will this usher in a new age of abundance Augmented is a book on future history but more than that it is a story about how you will live your life in a world that will change more in the next 20 years than it has in the last 250 years Are you ready to adapt Because if history proves anything you don't have much of a choice
