Introspections - What the Hell Is Going On?! Gabriel Spataru,2020-04-25 A simple and honest analysis of some of the factors that influence most young adults intodays society Just taking a sneak peek into your own past you will be able to see and understand the factors that influence you in your everyday life and how to have the power to change them You don t need to have some sort of special power or training you don t need a PhD you just have to be honest with you Written over the course of a few months during long nights it is a light read that hopefully will manage to put a smile on your face but from time to time pause and ask yourself a few honest questions Written in plain language it doesn t waste time bumbling about and gets straight to the point with a few easy to understand examples and scenarios

Process Drama for Second Language Teaching and Learning Patrice Baldwin,Alicja Galazka,2021-09-23 This book explains why and how drama works as an enjoyable social and emotionally engaging way for young people and adults to learn and use a second language within imagined worlds and develop their 21st century skills A flexible teachers toolbox of drama strategies is offered and guidance on how to start using drama for learning with language students Each strategy is presented in detail and used within the exemplar lessons The authors refer to relevant educational psychological and neurological theories and cite research that helps account for drama s efficacy in motivating talk and supporting second language acquisition whilst developing important life skills such as communication collaboration critical thinking creativity and resilience

Not Another U.S. History Textbook Adam Strube,2024-01-15 Why on earth would two history nerds use their own free time to write another US history textbook Well that intelligent human is the right question This work breaks from the traditional memorization of who what when where and focuses on why and how The former is popular in schools due to its efficiency in quantification for testing You re either right or wrong about remembering facts But it s so boring that most students turn off their brains once they set foot in the class and that habit continues well into old age if not recognized and corrected Why and how are more subjective therefore harder to grade But with their asking people become re centered in our collective story where they belong Only then can proper context be understood and criticism and perspective be applied We believe this approach to be the missing link in our education and understanding of current issues norms and discussion points Hopefully after reading this work each reader s critical thinking will activate around all history permanently That will certainly aid humanity s evolution and communication Wait does that mean this book can be categorized as self help Argue away
