bootstrap methods and their application cambridge university - Aug 16 2023

web bootstrap methods are computer intensive methods of statistical analysis which use simulation to calculate standard errors confidence intervals and significance tests the methods apply for any level of modelling and so can be used for fully parametric semiparametric and completely nonparametric analysis

tests chapter 4 bootstrap methods and their application - Jun 02 2022

web jun 5 2013 introduction many statistical applications involve significance tests to assess the plausibility of scientific hypotheses resampling methods are not new to significance testing since randomization tests and permutation tests have long been used to provide nonparametric tests
