The contemporary world is in the midst of significant shifts encompassing everything from climate change to the rapid advancements in Artificial Intelligence. These transformations impact the fabric of everyday human lives and society as a whole. In this context, design emerges as a crucial player offering a pivotal role in navigating these changes to foster a balanced and just world. This conference edition therefore has the theme of Responsible and Resilient Design for Society, underscoring the importance of adopting approaches that contribute to building a resilient society while acknowledging the responsibilities that come with being designers and researchers. The book will be of interest to researchers, professionals, and entrepreneurs working in the areas of industrial design, manufacturing, consumer goods, and industrial management who are interested in the new and emerging methods and tools for design of new products, systems, and services. Artificial Intelligence and Education: an Ongoing Dialogue Otto Federico Von Feigenblatt, Óscar Yecid Aparicio Gómez, 2024-06-01. The present volume explores the broad impact of artificial intelligence in education by presenting a broad range of perspectives from some leading experts in the field. An initial chapter tackles macro-level considerations from a social and anthropological perspective. Further chapters explore more specific topics ranging from philosophical aspects to the implications of AI in pedagogy and andragogy. The final chapter attempts to integrate the disparate aspects of the dialogue into a cohesive voice.
