future **Autonomous Agricultural Vehicles** Ali Roshanianfard, Sina Faizollahzadeh Ardabili, 2023-07-19 This comprehensive guide to agricultural robots is the ideal companion for any student or professional engineer looking to understand and develop autonomous vehicles to use on the modern farm. With world hunger one of the modern era's most pressing issues, autonomous agricultural vehicles are a key tool in tackling this problem. Smart farming can increase total factory productivity through designing autonomous vehicles based on specific needs in addition to implementing smart systems into day-to-day operations. This book provides step-by-step guidance from the theory behind autonomous vehicles through to the design process and manufacture. Detailing all components of an autonomous agricultural vehicle from sensors controlling algorithms, communication and controlling units, the book covers topics such as artificial intelligence and machine learning. It also includes case studies and a detailed guide to international policymaking in recent years. Suitable for students and professionals alike, this book will be a key companion to those interested in agricultural engineering, autonomous vehicles, robotics and mechatronics in mechanical, automotive and electrical engineering.

**How To Run Britain** Robert Peston, 2023-10-26 THE MUST READ BOOK FROM ITV'S ROBERT PESTON AND KISHAN KORIA REVISED AND UPDATED FOLLOWING THE GENERAL ELECTION. Previously published as *Bust Britain* is facing uncertainty, threats and risk. New Prime Minister, new government, new political landscape at home and abroad. But how much should change? And how much will change? *How To Run Britain* is a plea from Robert Peston and Kishan Koria to own what's gone wrong and make courageous reforms to everything from the way we manage the economy to how we vote. We all know that over the past fifteen years British living standards have stagnated, inequality between and within communities has grown rampant, politicians have lost credibility and the trust of the nation. Millions say they are unheard and disenfranchised, victimised even. A far-right racist minority feels entitled to riot. But what do those problems really mean and how do we fix them? How can politicians win the trust back from voters, from teachers, doctors, students, pensioners, all those who feel left behind by those who purport to act in their best interest? Peston and Koria's argument is simple: first we must interrogate everything that has gone wrong and build solutions from there. This is not the time to shy away from the recent past nor should we indulge in it. Instead we should take the lessons learned over the past fifteen years and build a future-focused strategic plan for restoring economic, political and social security to the country we know and love. *How To Run Britain* is a manifesto for change in its simplest, clearest form from the minds of two people who have seen it all. This is an updated, retitled edition of *Bust* by Robert Peston and Kishan Koria published in 2023.
