English abstract This Master thesis explores the phenomenon of Digital Content Marketing DCM by evaluating if content  
marketing and its tools have a positive impact on global companies in the chemical industry Rapid globalization and the  
development of new markets at an increasingly global scale have made DCM more important However global companies are  
facing new challenges like new technological developments and trends and a changing consumer landscape that requires  
new marketing approaches Strategies are required to overcome these challenges adopt DCM techniques and use current  
techniques to gain competitive advantages However there are still companies that have not included digital content in their  
marketing strategy Others have difficulties making their marketing content unique and powerful The main issue is often  
measuring the effectiveness of one s digital content to determine whether DCM has a positive impact      Directory of
