How Do I Remote Work Productivity For Beginners For Stay At Home Moms:

The Mother in Psychoanalysis and Beyond Rosalind Mayo, Christina Moutsou, 2016-10-04 The question of what it means to be a mother is a very contentious topic in psychoanalysis and in wider society *The Mother in Psychoanalysis and Beyond* explores our relationship to the maternal through psychoanalysis philosophy art and political and gender studies Over two years a group of psychotherapists and members of the public met at the Philadelphia Association for a series of seminars on the Maternal In the discussions that followed a chasm opened up slowly and painfully between the idealised longings and fantasies we all share and the realities of maternal experiences here were met the great silences of love loss longing memories desire hatred and ambivalence This book is the result of this bringing together in conversation and reflections of what so often seems unsayable about the Mother It examines how issues of personal and gender identity are shaped by the ideals of separation from the mother the fears and anxiety of merging with the mother and how this has often led in psychoanalysis and society to holding mothers responsible for a variety of personal and social ills and problems in which maternal vulnerability is denied and silenced There are two main themes running throughout the book Matricide and Maternal Subjectivity On the theme of matricide several contributors discuss the ways in which the discourse and narratives of the Mother have been silenced on a sociocultural level and within psychoanalysis and philosophy in favour of discourses that promote independence autonomy power and the avoidance and denial of our fundamental helplessness and vulnerability On the theme of maternal subjectivity several chapters look at the actual experience of mothering and or our relationship to our mother to highlight the ways in which the maternal is intimately connected with human subjectivity *The Mother in Psychoanalysis and Beyond* provides new and provocative thinking about the maternal and its place in various contemporary discourses It will appeal to psychoanalysts psychotherapists and psychologists of different schools scholars and advanced students of art gender studies politics and philosophy as well as anyone interested in maternity studies and the relationship between the maternal and human subjectivity Sociology of Families Cheryl Albers, 1999-03-11 A comprehensive selection of readings provided to support David Newman's book of the same name **Work from Home** Payal Kumar, Anirudh Agrawal, Pawan Budhwar, 2021-12-02 In *Work from Home* researchers from around the world answer questions about the impact of working from home on employee motivation work life balance and employee engagement while making a seminal contribution to the field of HRM from a work from home perspective **Crushing the IT Gender Bias** Kellyn Pot Vin Gorman, 2019-04-24 Conscious and unconscious bias societal pressures and discomfort with women's ambition are issues that women are confronted with in any male dominated setting and tech is no exception Statistically women are a disproportionately small percentage of the technology industry How did we get here what is changing and what can future generations of women in STEM expect In *Crushing the IT Gender Bias* author Kellyn Pot Vin Gorman applies her two decades of experience in tech to these meaningful questions plus many more As a mentor and sponsor of women in the database and

development communities Pot Vin Gorman uses experience visualizations of hard data and industry interviews to describe the many challenges that women face in STEM She then shows you how to inoculate against them Small positive changes like these are similar to a vaccine they build individual immunity and thus create herd immunity to protect the most vulnerable This shift is accomplished through increased representation of and direct exposure to successful role models in the industry You ll get practical advice related to hiring practices salary negotiations and barriers to collaboration After witnessing multiple female peers depart the tech world Pot Vin Gorman has written *Crushing the IT Gender Bias* to make her voice heard and to start this necessary conversation productively so that women can thrive Additionally this book is for male professionals who desire to grow in their understanding and eliminate bias in their environments Do not be content with mere survival Read this book practice the techniques and most importantly learn how to pay it forward By arming yourself with knowledge and facing bias head on you can be the meaningful change that you want to see in the tech industry Who This Book Is For Women in any area of technology with a desire to make and lead positive change by eliminating conscious and unconscious bias along with strategically confronting the many issues facing women in a field dominated by cultural bias The book appeals to those just starting a career through to seasoned professionals and even to those entering the management tier This book also welcomes men with a desire to grow in their understanding and eliminate bias in the world around them
