Parker,2023-07-03 Over the coming decades every academic discipline will have to respond to the paradigm of more sustainable life practices because students will be living in a world challenged by competition for resources and climate change and will demand that every academic discipline demonstrate substantial and corresponding relevance This book takes as its point of departure that integrating a component of sustainability into a discipline specific course arises from an educator asking a simple question in the coming decades as humanity faces unprecedented challenges what can my discipline or area of research contribute toward a better understanding of these issues The discipline need not be future oriented an archaeologist for instance could incorporate into a course some aspects of sustainable archaeological practices in areas threatened by rapid climate change as well as examples of sustainable or unsustainable ways of living practiced by members of the long gone society under investigation This book also argues that courses about sustainability need to cross disciplinary boundaries both because of the inter relatedness of the issues and because students will require the ability to use interdisciplinary approaches to thrive through the multiple careers most of them will face The contributions to this book are presented under four sections Sustainability as a Core Value in Education considers the rationale for incorporating sustainability in disciplinary courses Teaching Sustainability in the Academic Disciplines presents eight examples of courses from disciplines as varied as agriculture composition engineering and teacher education Education as a Sustainable Practice reviews how the physical environment of the classroom and the delivery of instruction need themselves to reflect the values being taught The final section addresses the issues of leadership and long term institutional change needed to embed sustainable practice as a core value on campus *Film, Video and Multimedia Guide* Peter Tapp,1997 Films videos and multimedia products released in Australia in the last 18 months 6 000 titles include feature films documentaries educational titles etc Lists where titles can be borrowed or bought in Australia and New Zealand Has title category i e subject country and director indexes Includes summaries *The Rural New-Yorker* ,1927 **Basic Guide to Data Communications** Ray Sarch,1985 **33 Tips for Working Remotely** Carmen Corral,2020-09-05 Remote working sounds as easy as grabbing your laptop and heading home But if you ve ever tried it you ll know it s not just a question of
