From Great Britain to Woke Britain Conrad Riker,101-01-01 Are you tired of seeing the values that once made Britain great being eroded by feminist and Marxist ideologies Do you feel like men are being unfairly targeted and marginalized in today s society Are you concerned about the future of your family and the next generation This book is a wake up call for redpilled men who are ready to take a stand against the forces that are tearing apart the fabric of our society Here s what you ll gain from reading it Understand how feminist policies have dismantled traditional family structures and undermined the role of men Discover the long term consequences of no fault divorce and the rise of family courts that favor women Learn how the feminization of academia and industry is producing a generation of directionless youth Explore the impact of Marxist activism on education and the erosion of meritocracy Uncover the truth about the war on discipline and how it s creating weak unprepared men See how the feminist capture of policing is prioritizing emotions over justice Get insights into the economic and demographic challenges caused by declining birth rates and mass migration Find out how you can reclaim masculine virtues and restore balance to society If you want to understand the root causes of societal decay and take action to rebuild a strong resilient future then buy this book today It s time to stop the woke agenda and reclaim our nation

Power in Ideas Kirsten Adams,Daniel Kreiss,2021-05-13 This Element develops an analytical framework for understanding the role of ideas in political life and communication Power in Ideas argues that the empirical study of ideas should combine interpretive approaches to derive meaning and understand influence with quantitative analysis to help determine the reach spread and impact of ideas This Element illustrates this approach through three case studies the idea of reparations in Ta Nehisi Coates s *The Case for Reparations* the idea of free expression in Mark Zuckerberg s Facebook policy speech at Georgetown University and the idea of universal basic income in Andrew Yang s *Freedom Dividend* Power in Ideas traces the landscapes and spheres within which these ideas emerged and were articulated the ways they were encoded in discourse the fields they traveled across and how they became powerful

The De Gruyter Handbook of Automated Futures Vaike Fors,Martin Berg,Meike Brodersen,2024-09-23 How does automation affect us our environment and our imaginations What actions should we take in response to automation Beyond grand narratives and technology driven

visions of the future what more can automation offer With these questions in mind The De Gruyter Handbook of Automated Futures provides a framework for thinking about and implementing automation differently It consolidates automated futures as an inter and transdisciplinary research field embedding the imaginaries interactions and impacts of automation technology within their social historical societal cultural and political contexts Promoting a critical yet constructive and engaging agenda the handbook invites readers to collaborate with rather than resist automation agendas It does so by pushing the agenda for social science humanities and design beyond merely assessing and evaluating existing technologies Instead the handbook demonstrates how the humanities and social sciences are essential to the design and governance of sustainable sociotechnical systems Methodologically the handbook is underpinned by a pedagogical approach to staging co learning and co creation of automated futures with rather than simply for people In this way the handbook encourages readers to explore new and alternative modes of research fostering a deeper engagement with the evolving landscape of automation

Genius Makers Cade Metz, 2021-03-16 This colorful page turner puts artificial intelligence into a human perspective Through the lives of Geoff Hinton and other major players Metz explains this transformative technology and makes the quest thrilling Walter Isaacson author of *The Code Breaker* Recipient of starred reviews in both Kirkus and Library Journal THE UNTOLD TECH STORY OF OUR TIME What does it mean to be smart To be human What do we really want from life and the intelligence we have or might create With deep and exclusive reporting across hundreds of interviews New York Times Silicon Valley journalist Cade Metz brings you into the rooms where these questions are being answered Where an extraordinarily powerful new artificial intelligence has been built into our biggest companies our social discourse and our daily lives with few of us even noticing Long dismissed as a technology of the distant future artificial intelligence was a project consigned to the fringes of the scientific community Then two researchers changed everything One was a sixty four year old computer science professor who didn't drive and didn't fly because he could no longer sit down but still made his way across North America for the moment that would define a new age of technology The other was a thirty six year old neuroscientist and chess prodigy who laid claim to being the greatest game player of all time before vowing to build a machine that could do anything the human brain could do They took two very different paths to that lofty goal and they disagreed on how quickly it would arrive But both were soon drawn into the heart of the tech industry Their ideas drove a new kind of arms race spanning Google Microsoft Facebook and OpenAI a new lab founded by Silicon Valley kingpin Elon Musk But some believed that China would beat them all to the finish line *Genius Makers* dramatically presents the fierce conflict among national interests shareholder value the pursuit of scientific knowledge and the very human concerns about privacy security bias and prejudice Like a great Victorian novel this world of eccentric brilliant often unimaginably yet suddenly wealthy characters draws you into the most profound moral questions we can ask And like a great mystery it presents the story and facts that lead to a core vital question How far will we let it go
