Web 2.0 and Beyond Paul Anderson, 2016-04-19 Web 2.0 and Beyond Principles and Technologies draws on the author's iceberg model of Web 2.0 which places the social Web at the tip of the iceberg underpinned by a framework of technologies and ideas. The author incorporates research from a range of areas including business economics information science law media studies psychology social. *Internet Memes and Copyright Law* Brian Chun Lok Leung, 2025-09-30 This book explores the intricate relationship between copyright law and internet meme culture challenging an assumption that copyright is a barrier to digital creativity. Using the lens of internet memes to analyse copyright law in the context of participatory remix culture the book confronts a common perception that copyright is the destroyer of internet memes on social media platforms. Following the European Union's Copyright Directive widely known as the Meme Ban this book critically examines whether copyright might instead be reimagined to foster rather than inhibit re-creations that define internet meme culture. The book argues that this culture directly challenges copyright's core assumptions and proposes a new holistic approach to copyright that distinguishes between traditional and emergent forms of creative processes. Arguing for a flexible interpretation of copyright that limits private proprietary rights in the case of internet memes it provides a legal framework to support socio-cultural discourse without undermining copyright's foundational principles. Covering core copyright concepts such as authorship idea expression originality fair dealing and user rights the book provides a compelling argument as to how copyright can adapt to the digital age as a protector of cultural expressions ensuring that internet memes are not only preserved but celebrated. The book will be of interest to researchers in the field of copyright law the law of emerging technologies and intellectual property law. *The Future of Journalism* Bob Franklin, 2013-09-13 The future of journalism is hotly contested and highly uncertain reflecting developments in media technologies shifting business strategies for online news changing media organisational and regulatory structures the fragmentation of audiences and a growing public concern about some aspects of tabloid journalism practices and reporting as well as broader political sociological and cultural changes. These developments have combined to impoverish the flow of existing revenues available to fund journalism impact radically on traditional journalism professional practices while simultaneously generating an increasingly frenzied search for sustainable and equivalent funding and from a wide range of sources to nurture and deliver quality journalism in the future. This book brings together journalists and distinguished academic specialists from around the globe to present the findings from their research and to discuss the future of journalism the shifting quality of its products its wide ranging sources of finance as well as the economic and democratic consequences of the significant changes confronting Journalism. *The Future of Journalism* details the challenges facing the press in contemporary societies and provides essential reading for everyone interested in the role of journalism in shaping and sustaining literate civil and democratic societies. This book consists of special issues from Journalism Studies and Journalism Practice. *Future By Us, The: Australia Beyond 2020* H

Evans,2011-08-01 There is no The Future The Future does not exist independently of the choices we make today individually and as a society What the future holds depends entirely on us on those alive today It is an enormous responsibility being alive in these times We can change the world and the need for change has never been greater In The Future By Us the best young Australian minds respond to the challenges of our times by presenting their visions for Australia in 2020 and beyond From creating a sustainable society forging better relationships with Indigenous Australians building stronger communities to reinvigorating democracy these future leaders address the biggest issues of the twenty first century In clear well argued essays they identify the challenges discuss the potential hazards and suggest practical steps we can take to create an even better Australia A rallying call to all Australians this inspiring book is a catalyst for change The Future By Us is a vision that requires everyone's contribution
