Online Education Anthony G. Picciano,2025-08-12 Online Education is a comprehensive exploration of fully online and blended teaching platforms addressing history theory research planning and practice As colleges universities and schools around the world accelerate their adoption of large scale technologies and traditional class models shift into seamless digitally interactive environments critical insights are needed into the implications for administration and pedagogy Written by a major contributor to the field this book contextualizes online education in the past and present before analyzing its fundamental changes to instruction program integration social interaction content construction networked media policy and more This substantively revised second edition examines recent developments in services and implementation from the expansion of synchronous online learning experiences to the widened availability of generative artificial intelligence software while updating its research foundations and case studies A provocative concluding chapter speculates on the future of education as the sector becomes increasingly dependent on advanced AI systems massive cloud computing biosensing tools and robotics   **Assisting Intelligence** Mike P O'Brien,2024-12-09 Assisting Intelligence How to Build Authentic in the Age of AI A Golden Retriever a 15th Century Printer and a Generative AI Model walk into a bar No this isn t the setup of a joke or AI hallucination It s the beginning of an extraordinary journey through time and technology Dive into the age of AI to Ignite Ideas Learn how to craft prompts that spark innovation Preserve Authenticity Discover how to use AI to protect your unique voice and brand Expand Knowledge Explore the power of AI to enhance learning and understanding A Guide to the AI Revolution Practical and complete this playbook offers A Primer on AI Onboard with the basics essential tips and techniques Master Prompts Learn the art of crafting effective prompts Preserve Your Voice How to harness AI without compromising your individuality Tell your stories and explore alternative perspectives on AI s capabilities Iterate with AI Adopt an Agile AI methodology for knowledge creation Define Your AI Tell your stories and explore alternative perspectives on AI s capabilities Your AI Playbook Equip yourself with AI expertise with guided practice Embrace the Future Informed by the Past to Build Authentic Join us on this journey to unlock the full potential of AI By understanding its capabilities and limitations we can build a future where AI assists our intellectual pursuits Discover how to build authentic knowledge by harnessing AI s Assisting Intelligence   Controllable Artificial Intelligence and the Future of Law Hugo Luz dos Santos,2025-11-08 This book broaches the newly crafted concept of algorithmic dictatorship that draws on a plethora of human biases that creep into the algorithm and feeds into an automated decision that comes to the expense of citizens lives freedoms health property fair lending and credit scoring This book sheds a keen light on the slew of reasons in view of which artificial intelligence should be both interpretable and controllable as opposed to merely explainable The reason for that is straightforward the skewed data baked into the bigoted algorithms machine biases spawns harrowing effects with which criminal justice has been grappling for a long haul drawn out Tallyingly and perhaps unsurprisingly law enforcement evinces biases that run along

both gender and race lines No surprise springs from the fact that computer generated algorithms that propel predictive policing are often flagged as tools whereby racial discrimination abounds It should not therefore be pegged as flabbergasting that this sort of shady algorithmic governance is a byproduct of a grueling algorithmic dictatorship that is shaping up to crumble the foundations of Rule of Law upon which stands modern societies This is one of the key takeaways of this book Disturbingly enough brain computer interfaces are poised to be converted into shady tools to collate gauge thoughts emotions sentiments and crime related information that would be otherwise inaccessible to the governments rogue nations or unscrupulous actors prying eyes Much to our dismay an eerily dystopian world is unfolding before our very eyes This is the gist of transhumanism a byproduct of convolutional neural networks that revolve around deep learning genetic algorithms that will overhaul the current legal landscape beyond recognition This book charts the path ahead as to draw set in stone boundaries to prevent jurisdictions from careening into the chaos of genetic plutocracy that should be wished away
