A Handbook for Imaginative Writing, 1993

On Creative Writing Linda Lavid, 2014-05-09 There are several aspects to writing fiction Rendering what John Gardner in *The Art of Fiction* describes as a vivid and continuous dream is a complicated affair Story is created from the imagination of a writer who in turn must translate it onto a page of symbols so that another person can read absorb and experience the story in a similar fashion It's a remarkable process when you think about it In *On Creative Writing* the process of writing fiction is demystified and cut in palatable bites to help any writer who has the passion and mad desire to tell a story Fiction demands a working knowledge of many points of craft that can be

taught and learned And while mastering craft can be daunting each one of us has the skills to meet the challenge In fact the quality most needed is neither talent nor knowledge but the mad unrelenting desire to tell a story And with this passion walk to the end of the diving board loosed your shoulders and take the plunge **Story Craft** Bruce Anthony,2014
