Impact Of Globalization On Indian Economy:

Globalization I. L. N. Chandra Sekhar Rao, 2016 Globalisation and Indian Economy Bharat Jhunjhunwala, 2007 This book presents the changing contours of India's position in the global economy. The first section deals with India's defensive posture in the nineties vis-à-vis the Multinational Companies. The resistance to speedy opening up of the economy has enabled Indian businesses to become globally competitive. The second section deals with the challenges before India in the beginning of the 21st millennium as she is increasingly recognized as a world power. The earlier defensive posture has to be changed into an offensive posture now with India aiming to break the economies of the rich countries. This can be done for example withdrawing forex reserves from US T-Bills. The third section deals with the challenges before India in establishing a just world order. The question is how to break the inherent injustice in the world economy where 20 percent of the people of rich countries are consuming 80 percent of the resources. India should not tie its wagon to the engine of rich countries and try to gain from injustice of the present world order. Instead India must take the lead in confronting the injustice perpetrated by the rich countries, organize the developing countries and establish a world economy based on justice. **Impact of Globalisation on Indian Economy** D. Centre of Defence and Strategic Studies course: International Security Studies. Language: English. Abstract: With the United States as the dominant power in the western hemisphere and China in the east it is hard to argue against the fact that India is an emerging power on the global scene. The first section of the essay examines India's economic growth, globalization, military and nuclear power relations with foreign powers and regional stability as factors that would elevate India to regional hegemon status. The latter part of the essay explores lack of leadership and abandonment of regional responsibilities as obstacles to India achieving regional dominance. The essay concludes by arguing in favour of India as a potential regional hegemon in South Asia. **Globalization and the Indian Economy** Satyendra S. Nayak, 2007-12-05. Chapter: Introduction.
