Ruhel Chisty FRACI CChem A,MRSC CChem, **Civilizational Discourses in Weapons Control** Ritu Mathur,2020-07-11 This book seeks to decolonize practices of arms control and disarmament In this endeavor it seeks to problematize our understanding of time and civilization as rhetorical resources The need for such an undertaking can be premised on the claim that while problems of modernity ethnocentrism and universalism are now a central concern within the field of international relations these ideas are scarcely debated or contested within the field of arms control and disarmament The singular focus on technological innovations and specific policy oriented agreements in practices of arms control and disarmament appears to stymie the need for such engagements This book is an invitation to explore intersecting discourses on colonialism racialism nationalism and humanitarianism within a historically grounded terrain of weapons control An understanding of these practices is vital not to prescribe any standards of civilization or exceptionalism in weapons control but to be cognizant through critique of the dangers embedded in any effort at reconstellating the constitutional nuclear order **Weapon of Choice** Matthew C. experiences during the civil war the subsequent conflict with India and as a prisoner of war While still a war memoir it is also the raw and heartfelt account of a man separated by duty from his loved ones and ordered along with his young soldiers to fight a pointless war ruthlessly orchestrated by generals and politicians **Arms and the Man** ,1914 **The Collection of Primitive Weapons and Armor of the Philippine Islands in the United States National Museum** Herbert William Krieger,1926 The primary objective to this handbook is to describe various weapon types that have preserved in metal wood horn and bone traces of the material culture of the several waves of civilization that have reached the Philippines in the past The second objective of this catalogue of Philippine weapons of offense and defense is to describe the typical originality of form the skill displayed in weapon manufacture and the beauty of ornamental patterns produced in the islands but characteristic of the localities in which they are made and used **The Evolution of the Artillery in India** Romesh C.
