**Sacred Ecology** Fikret Berkes, 1999 This text deals with the topic of traditional ecological knowledge in the context of natural resource management and treats it as a knowledge practice belief complex

**Reclaiming Indigenous Knowledge Systems** Kendi Borona, 2019-01-03 Conservation has over the last couple of decades coalesced around the language of community engagement Models that seemed to prop up conservation areas as those emptied of human presence are cracking under their own weight This book grounds our understanding of people forest relationships through the lens of Indigenous Knowledge Systems IKS in the Nyandarwa Aberdare forest reserve in Kenya home to the Agikuyu people It confronts the history of land dispossession in Kenya demonstrates that land continues to be a central pillar of Agikuyu indigenous environmental thought and cements the role of the forest in sustaining the struggle for independence It also shines a light on seed and food sovereignty as arenas of knowledge mobilization and self determination The book concludes by showing how IKS can contribute to forging sustainable people forest relationships

**Wisdom of the Land: Harnessing Indigenous Knowledge for Sustainable Environmental Management** Chasity Huffman, In this book embark on a fascinating exploration of how traditional knowledge and practices of indigenous communities intertwine to pave the way for sustainable environmental management Delve into the intricate ways in which these communities rich in ancestral wisdom preserve their lands and resources through time honored approaches Witness the formidable bond between indigenous peoples and nature unravelling the symbiotic relationship they share Discover never before documented techniques and ancestral wisdom that offer fresh insights into navigating the delicate balance between humanity and the environment Experience a transformative journey that may challenge everything you thought you knew about sustainable environmental management

**The Need for Indigenous Knowledge in Environmental Impact Assessment** Seth Appiah-Opoku, 2005 This book questions and explores the appropriateness of Western models of environmental impact assessment for Third World application The book also examines Ghana's environmental impact assessment procedure and the potential role of indigenous knowledge and institutions in the assessment process based on the results of a field research in Ghana Finally the book offers suggestions that could improve Ghana's environmental impact assessment procedure and facilitate its adoption in other developing countries this book will be of interest to environmental assessment professionals and students international development agencies NGOs planners academicians and policy makers looking for bottom up and effective ways of incorporating environmental considerations in development projects in developing countries

**Cultural Hybridity and the Environment** Kirsten Maclean, 2015-02-07 This book highlights the importance of diversity in

overcoming issues of social and environmental degradation It presents conceptual and practical strategies to celebrate local and Indigenous knowledge for improved community development and environmental management David Harvey has proclaimed The geography we make must be a peoples geography This clarion call challenges geographers around the world to consider the power and potential of geographic knowledge as the basis for social action a call this book answers providing readers the theoretical and conceptual tools needed to understand the social world and empowering them to mobilize social change The author uses empirical case studies of two environmental management and community development projects to document how knowledge generation is essentially locally situated and socially derived In doing so she charts a path for moving beyond what Vandana Shiva so aptly describes as monocultures of the mind The book argues that local and Indigenous knowledge must not be seen in opposition to scientific knowledge as none of these knowledge traditions hold all the answers to localized socio environmental problems Rather as the author explores through a set of processes and strategies to enable support and celebrate cultural hybridity at the local environmental governance scale these respective knowledge systems can learn to speak to each other Such dialogue has the potential to support more sustainable outcomes at multiple environmental governance locales This book will be of interest to everyone involved in environmental policy planning or politics and for those who want to make this planet a more sustainable and just place

**Indigenous Water and Drought Management in a Changing World** Miguel Sioui, 2022-05-19 Indigenous Water and Drought Management in a Changing World presents a series of global case studies that examine how different Indigenous groups are dealing with various water management challenges and finding creative and culturally specific ways of developing solutions to these challenges With contributions from Indigenous and non Indigenous academics scientists and water management experts this volume provides an overview of key water management challenges specific to Indigenous peoples proposes possible policy solutions both at the international and national levels and outlines culturally relevant tools for assessing vulnerability and building capacity In recent decades global climate change particularly drought has brought about additional water management challenges especially in drought prone regions where increasing average temperatures and diminishing precipitation are leading to water crises Because their livelihoods are often dependent on the land and water Indigenous groups native to those regions have direct insights into the localized impacts of global environmental change and are increasingly developing their own adaptation and mitigation strategies and solutions based on local Indigenous knowledge IK Many Indigenous groups around the globe are also faced with mounting pressure from extractive industries like mining and forestry which further threaten their water resources The various cases presented in Indigenous Water and Drought Management in a Changing World provide much needed insights into the particular issues faced by Indigenous peoples in preserving their water resources as well as actionable information that can inform future scientific research and policymaking aimed at developing more integrated region specific and culturally relevant solutions to these critical

challenges Includes diverse case studies from around the world Provides cutting edge perspectives about Indigenous peoples water management issues and IK based solutions Presents maps for most case studies along with a summary box to conclude each chapter **Indigenous Knowledge Systems and Sustainable Development** Emmanuel K. Boon,Luc Hens,2007

Contributed papers presented at the Conference Resource & Environmental Management Bruce Mitchell,2013-12-16

This book does an exceptional job in giving an understanding of change complexity uncertainty and conflict as well as their linkages including awareness of strategies methods and techniques to handle them relative to resource and environmental management The text enhances the reader s capacity to conduct practice and conduct research in resource and

environmental management *Indigenous Knowledge* Paul Sillitoe,2017-11-07 Indigenous Knowledge IK reviews cutting edge research and links theory with practice to further our understanding of this important approach s contribution to natural resource management It addresses IK s potential in solving issues such as coping with change ensuring global food supply for a growing population reversing environmental degradation and promoting sustainable practices It is increasingly recognised that IK which has featured centrally in resource management for millennia should play a significant part in today s programmes that seek to increase land productivity and food security while ensuring environmental conservation An invaluable resource for researchers and postgraduate students in environmental science and natural resources management this book is also an informative read for development practitioners and undergraduates in agriculture forestry geography anthropology and environmental studies *Indigenous knowledge systems and climate change management in Africa* Ajayi, O.C. (ed),Mafongoya, P.L. (ed),2017-11-15 Climate change presents a profound challenge to food security and sustainable development in Africa Its negative impacts are likely to be greatest in the African region which is already food insecure In the face of global climate change and its emerging challenges and unknowns it is essential that decision makers base policies on the best available knowledge In recent years the knowledge of local and indigenous people often referred to as indigenous knowledge IK has been increasingly recognised as an important source of climate knowledge and adaptation strategies

*Cultural Roots and Educational Reforms: The NEP-IKS Connection* Priya Lokare,Neha Thakrar,Prof. Abhijit Anil Gaikwad,2025-06-26 The landscape of Indian education is undergoing a profound transformation one that seeks to reconcile the wisdom of the past with the aspirations of the future This book Cultural Roots and Educational Reforms The NEP IKS Connection is born from this spirit of synthesis where the traditional knowledge systems of India meet the modern objectives of the National Education Policy NEP 2020 The chapters in this volume explore the rich intersection of Indigenous Knowledge Systems IKS with educational reforms envisioned by NEP Each contribution offers a unique lens through which to examine how India s ancient philosophies pedagogies and cultural practices can be meaningfully integrated into contemporary educational frameworks Whether it is reimagining classrooms through traditional ecological wisdom exploring policy synergies with global frameworks or delving into the medicinal and scientific heritage of India this compilation

captures the breadth and depth of IKS's relevance today. Our intent in bringing this book together is twofold: first to document and disseminate scholarly research that validates the relevance of IKS in modern education and second to inspire educators, researchers, and policymakers to embrace a more holistic, inclusive, and culturally rooted approach to learning. We believe that embedding cultural context in education enhances not only academic understanding but also fosters ethical, environmental, and social consciousness in learners. We are deeply grateful to the contributors who have shared their expertise and to all those working tirelessly to revive, preserve, and integrate India's indigenous intellectual traditions within the educational landscape. This book is a step toward bridging the gap between heritage and innovation, tradition and transformation. We hope that readers will find in these pages both insight and inspiration for shaping an educational paradigm that is not only informed by the past but also equipped to shape a sustainable and equitable future.

De Gruyter Handbook of Media and Social Change in the Global South Kehbuma Langmia, 2025-12-15. The birth of the newspapers, radio, and television in the 19th century brought various interconnected social, behavioral, and cultural changes in the lives of the colonizer and the colonized in the economically developing nations. Then, in the 20th century and now the 21st century, the birth of digital media for political, social, cultural, and economic communications have witnessed divergent results in the West and the non-Western countries. The Global South is currently facing digital divides and issues related to media illiteracy that tend to impact people's lives more than those in the North. Furthermore, a significant shift in online and offline communicative behavior has had various effects in the way the young and the old, male and female, the haves and the have-nots interact in the media space. This handbook brings together a multidisciplinary group of authors from the Global South and the diaspora to document, examine, expose, and critically assess the nature, role, and impact of the social changes brought by the emergence of the mediated forms of communication in the Global South. This remarkable volume is a must-have resource for anyone interested in communication and social change and development and social change in the Global South.

**Indigenous Environmental Knowledge and its Transformations** Alan Bicker, Roy Ellen, Peter Parkes, 2003-12-16. The first concerted critical examination of the uses and abuses of indigenous knowledge. The contributors focus on a series of interrelated issues in their interrogation of indigenous knowledge and its specific applications within the localized contexts of particular Asian societies and regional cultures. In particular, they explore the problems of translation and mistranslation in the local/global transference of traditional practices and representations of resources.

Handbook on Planning and Climate Change Adaptation Patrick Brandful Cobbinah, Michael Addaney, 2025-08-11. This timely Handbook explores how planning can be used as a mechanism, a tool, and a process to sustainably manage the impacts of climate change. Conceptually grounded in the planning and climate change literature, it illustrates the different capabilities and inadequacies of planning in addressing climate change adaptation.

Indigenous Knowledge and Disaster Risk Reduction Gopal Krishna Panda, Uday Chatterjee, Nairwita Bandyopadhyay, Martiwi Diah Setiawati, Debarpita Banerjee, 2024-05-05. The book seeks to comprehend

how indigenous knowledge systems of local communities can be effectively used in disaster management of various types A prime example is the 2015 Sendai Framework for Disaster Risk Reduction promoting indigenous environmental management knowledge and practices Traditional knowledge of indigenous peoples includes information and insight that supplement conventional science and environmental observations a comprehensive understanding of the environment natural resources culture and human interactions with them which is not documented before A great deal of this knowledge have been lost in translation In this book the authors attempt to keep a record of each and every traditional knowledge study of the indigenous communities in managing the disasters The use of indigenous knowledge systems in disaster understanding and management is the primary focus of the chapters This book is organized into four major sections The first part gives an overview and help in conceptualizing the different concepts of hazard and disaster perception and how response and adaptation are connected with it This part also discusses the concept of the connection between hazard and sustainable development and how the understanding of risk reduction and resilience can happen with the help of indigenous knowledge insights and strategies The second part of the book introduces the different approaches to disaster and risk management It establishes how vulnerability influences the risk associated with a hazard and the responses can be both positive and negative in disaster management The approaches of the indigenous communities in managing a disaster their resilience capacity building and community based preparedness will be the area of prime focus in this chapter Part 3 of this book describes the concept of sustainability through indigenous knowledge and practice The sole highlight of this chapter is the indigenous knowledge efficacies in disaster identification risk reduction climate risk management and climate action The last section of the book explores how to meet the gaps between local knowledge and policy formulation It highlights how traditional knowledge of the indigenous communities can prove to be beneficial in developing a holistic regional based policy framework which will be easily accepted by the target stakeholders since they will be more acquainted with the local strategies and methods This section ends with an assessment and discussion of the gaps and future scopes in disaster risk reduction through integrating local knowledge and modern technologies

Sacred Ecology Fikret Berkes, 2012-03-29 Sacred Ecology examines bodies of knowledge held by indigenous and other rural peoples around the world and asks how we can learn from this knowledge and ways of knowing Berkes explores the importance of local and indigenous knowledge as a complement to scientific ecology and its cultural and political significance for indigenous groups themselves This third edition further develops the point that traditional knowledge as process rather than as content is what we should be examining It has been updated with about 150 new references and includes an extensive list of web resources through which instructors can access additional material and further illustrate many of the topics and themes in the book Winner of the Ecological Society of America's 2014 Sustainability Science Award

*Learning 'from' and 'with' the Locals* Anwesha Borthakur, Pardeep Singh, 2024-10-14 This book aims to capture the fading traditional knowledge systems of local and indigenous communities in the Himalayas As many of these

practices are at risk of disappearing the book serves as a valuable record It encourages readers to reflect on the implications of such knowledge for environmental sustainability today Focusing on one of the most crucial mountain ranges globally the book emphasizes the importance of learning from and with the locals about their lived experiences in the Himalayas Understanding their unique set of traditional knowledge and technologies is crucial for building climate resilience and effective environmental management With contributions from experts across the Himalayan region the book strives for a comprehensive grasp of environmental challenges and potential solutions Beyond documentation the goal is to explore opportunities for integrating traditional knowledge with modern scientific approaches Recognizing the urgency the book advocates for the preservation of local and indigenous knowledge to address the ongoing global environmental crisis

**The Routledge Handbook of Indigenous Environmental Knowledge** Thomas F. Thornton, Shonil A.
