This text contains a lot of the core information that an inclusion text requires and then takes the reader to a higher level by including issues of gender, race, ethnicity, language, socioeconomic status, and family structures. Features of the fifth edition include Principles of effective inclusion as a framework for the text. The following principles are integrated into each chapter and demonstrate that inclusion is not just a government mandate but a principled philosophy for reflective and effective teaching for all students: all learners and equal access, individual strengths and needs, reflective practices, and differentiated instruction and community and collaboration. Classroom-based examples and case studies of teachers implementing effective inclusive educational practices. These examples and cases are integrated throughout the chapter narrative and with the CD-ROM that accompanies the text *Inclusive Classrooms Video Cases* on CD-ROM. This new CD-ROM provides access to living classroom examples of teaching and learning strategies for inclusion. Each video case depicts scenarios that clearly show the impact of inclusion on supporting students with challenging behaviors, preschool classroom climate, elementary assessment and planning, middle and partial participation, and cooperative learning. Secondary: Using Technology to Promote Inclusion. A new feature that uses a variety of formats to present issues, strategies, and resources for using technology to help students gain access to and succeed in inclusive classrooms. The integration of CEC PRAXIS and INTASC professional standards. Each chapter summary demonstrates where chapter content aligns with these standards.
