

SIXTH EDITION

INTERNATIONAL BUSINESS

Alan M. Rugman
& Simon Collinson

Business is becoming increasingly international, as the interaction, exchange and interdependence between nations, firms and people around the world keeps on growing. Our complex, fast-moving global economy continually throws up new management and leadership challenges, which require clear thinking. This textbook connects tried-and-tested theory, analytical frameworks, data and case examples to help students of management meet these challenges.

This sixth edition of *International Business* delivers a comprehensive guide to the subject from authors who keep pace with the ongoing developments in both theory and practice.

It has been restructured to lend greater emphasis to the strategic challenges of international business. The growing importance of emerging economies, such as China, India and Brazil, is reflected in specific chapters and case examples that help students understand how these countries are changing the competitive dynamics of global business. This links to a new focus on innovation, adaptability and entrepreneurship as necessary strategic capabilities for firms large or small, from mature, emerging or developing economies.

Alan M. Rugman is Professor of International Business and Head of the International Business and Strategy Group at the Henley Business School, University of Reading.

Simon Collinson is Professor of International Business and Innovation at the Henley Business School, University of Reading.

The book provides essential material for the successful study of international business:

- a new five-part structure emphasizing a strategic leadership approach to international business
- a brand-new chapter on Innovation, Entrepreneurship and "Born Global" Firms with cases on Facebook, Spreadshirt and Seznam
- the core set of analytical frameworks in international business that bridge theory and practice
- 105 case studies drawn from a wide range of sources, updated for this edition
- practical tools, like the "weighted country risk assessment" model, for real-world decision making
- a large set of bibliographic and web-based resources for independent research.

Strategic International Management Dirk Morschett, Hanna Schramm-Klein, Joachim Zentes, 2015-01-27 A compact overview of the most relevant concepts and developments in International Management The various strategy concepts of internationally active companies and their implementation in practice are the core of this book The authors describe the particularities of international value chain activities and management functions and offer a thorough understanding of how Production Sourcing Research Development Marketing Human Resource Management and Controlling have to be designed in an international company and what models are available to understand those activities in an international context In 23 lessons a comprehensive overview of all key issues is given Each lesson is accompanied by a case study from an international company to facilitate the understanding of all important factors involved in strategic international management In this third edition all chapters have been updated all case studies revised new chapters and recent data were integrated

Strategic Motivations of Inward R&D FDI Osagie Igbini, Mark Cook, Lucy Zheng, 2020-06-15 This book explores the motivations of R D foreign direct investment FDI in a developed country placing a particular emphasis on the United Kingdom Multinational enterprises operate in increasingly competitive and complex environments and the role of R D can be vital in the creation adaptation or adoption of knowledge across different foreign locations This book offers valuable insight into the similarity and distinction between strategic and specific motivations of R D FDI at the country level addressing a key gap in previous research on the topic Based on an empirical study the authors challenge current thinking in international business studies by shifting focus from R D FDI globalisation to the concentration of R D FDI in a single location conceptualising the interplay of strategic and location specific motivations This book is a vital read for students researchers and practitioners interested in understanding the motivations behind R D FDI decisions in the UK and beyond

Transition Redesigned Wojciech W. Gasparski, 2017-07-28 Transition Redesigned deals with the philosophical bases of different types of transition change in the economy organizational institutional change and change in social and individual relationships The editors primary goal is to give further impetus to a much needed worldwide debate on the issue of transition towards a better future The volume reviews transitions made in different areas of human activity assesses their relevancy and analyzes their contexts During this century different organizations and institutions will undergo a level of radical and global change that has rarely been seen The expected shift must be addressed in terms of a multidimensional transition toward building a sustainable society Do we have an understanding of transition relevant to the task of meeting at least some of the challenges presented in this volume Do we need a radical innovation for redesigning the transition that may enforce real social and ethical responsibilities into organizational practice on different levels and bring to life new ideas Transition Redesigned seeks to answer these questions
