Intersecting Interregionalism Regions Global Governance And The Eu United Nations University Series On Regionalism:

Intersecting Interregionalism Francis Baert, Tiziana Scaramagli, Fredrik Söderbaum, 2013-12-28 This book has two mutually reinforcing aims parts The first aim is to contribute to a more productive debate between different theoretical standpoints There is surprisingly little theoretical and conceptual debate in this burgeoning field which is one major reason for the failure to fully grasp the diversity of today's interregionalism Too often theorists speak past each other without really engaging with alternative theoretical perspectives or competing research results Indeed this book constitutes the first systematic attempt to bring together leading theories and theorists of interregionalism Leading scholars from around the world develop their own distinctive theoretical perspectives on interregionalism with a particular emphasis on the dynamic relationship between regionalism and interregionalism These highly acclaimed theorists have all been associated over the years with a variety of disciplines institutions schools and debates and so bring a rich set of insights and connections to this pioneering project The second part of the book unpacks and problematises the region the driving actors and institutions that are engaged in interregional relations There is a strong tendency in the field to treat regions as coherent units actors in an interregional relationship and such simplified notions about regions and regional organisations necessarily result in superficial and misleading understandings of interregionalism This part of the book connects the theoretical discussion in the first part with a manageable empirical object

Intersecting Interregionalism Francis Baert, Tiziana Scaramagli, Fredrik Soderbaum, 2014-01-31 **EU-MERCOSUR Interregionalism** Mario Torres Jarrín, Lourdes Gabriela Daza Aramayo, 2023-03-01 This book focuses on EU MERCOSUR relations from a diplomatic and trade perspective against the background of the political agreement between the two in 2019 The authors take into consideration that EU MERCOSUR cooperation developed during recent decades has tried on the one hand to build a strategic partnership to respond to the main challenges of international agendas and on the other to incorporate in Latin American countries the European new vision of transatlantic regionalism Starting from a historical perspective of the development of interregionalism between the EU and MERCOSUR the book goes on to study the geopolitical impacts of Brexit stagnation of the EU USA relationship the COVID 19 pandemic and of new geopolitical players in EU LAC interregionalism It discusses the legal institutional framework of the EU MERCOSUR relations and provides a comparative view of features of MERCOSUR countries vis vis the European Union The book also analyses and provides a comprehensive overview of various aspects of interregional trade in the context of the 2019 agreement Highly topical and authored by experts in this field this book is of interest to a wide readership in the social sciences and economics from political sociology to international relations diplomacy studies and international trade

most significant systemic processes that define the EU as a regionalist project its enlargement neighborhood and mega regional policies The book argues that these processes collectively demonstrate a dynamic shift of the core tenets of European regionalism from an inward looking process of region building to an open selective system of global interactions

Science Diplomacy, Cyberdiplomacy and Techplomacy in EU-LAC Relations Mario Torres Jarrín, Shaun Riordan, 2023-10-03 This book explores collaborations between the European Union EU and the CELAC Community of Latin American and Caribbean States in science diplomacy as well as the related areas of cyberdiplomacy and techplomacy It focuses on how interregional collaboration could strengthen societal resilience in both LAC and EU member countries and contribute to realising the SDGs and Agenda 2030 objectives The book explores the history of EU relations with LAC and provides a conceptual basis for science diplomacy including cyberdiplomacy and techplomacy in the context of international relations and diplomacy studies It highlights how COVID 19 has accelerated pre existing trends in diplomacy in EU and LAC forcing diplomats online and making them confront scientific and technical issues as core parts of foreign policy agendas and future pandemic preparedness The book also examines the role of science diplomacy between these regions in relation to the climate change debate and reflects on whether the EU LAC collaboration in science and R D can be taken to a policy level It provides suggestions on ways in which the CELAC and the EU could collaborate both in promoting a ruled based cyberspace and in strengthening digital resilience and situates this collaboration in the broader geopolitical scientific and technological environments Authored by experts in this field this highly topical book is of interest to a wide readership interested in diplomacy studies public policy international relations regionalism and S T studies

Broadening the Debate on EU-Africa Relations Frank Mattheis, John Kotsopoulos, 2020-06-29 Broadening the Debate on EU Africa Relations is designed to expand the scope of our understanding of the multi layered relationship between the European Union and African political actors in order to shape both the academic and policy level discourse The focus on chapters highlighting an African perspective offers an opportunity to redress an imbalance in scholarship and also represents an effort to reinvigorate the EU Africa discourse The contributors scrutinise hitherto underexplored areas from agricultural cooperation to sanctions to scientific collaboration as new insights linger in the less visible margins of the relationship Jointly they push in the same direction to broaden the debate on how subjects are approached in a field of study that has one sidedly focus on the intended actions of the EU To that end three dimensions represent the common thread of the book how to recalibrate African and European perspectives how to proceed on an assumption of mutual influence rather than unidirectionality and how to highlight the intertwined nature of the different drivers of the relationship Recalibrating African and European perspectives by focusing on elements of reciprocity within the broad array of interregional interactions Broadening the Debate on EU Africa Relations will be of great interest to scholars of African Studies African IR and the EU The chapters were originally published as a special issue of the South African Journal of International Affairs
