**Sample Book Insights**

- 1 To design for users, you must first understand users. If you don't already have that understanding, you must do some form of user research.
- 2 The team conducted another study this time, showing users the existing ink cartridges, black rectangles with text-heavy stickers. The users loved the new designs, exclaiming enthusiastically and caressing them. Regardless of methodology, there was no insight to be gained here.
- 3 Interviewing is the process of gathering information about users to support the organization when creating products, services, and more. It is a shared goal for user researchers to gather information about users to support the organization when creating products, services, and more.
- 4 The term ethnography is sometimes contentious, but it is simply referring to interviewing users. It is a deep understanding of people that informs design and business problems.
