**The Sermon on the Mount and Moral Theology** William C. Mattison, III, 2017-07-03 In this volume William C Mattison III demonstrates that virtue ethics provides a helpful key for unlocking the moral wisdom of the Sermon on the Mount Showing how familiar texts such as the Beatitudes and Petitions of the Lord's Prayer are more richly understood and can even be aligned with the theological and cardinal virtues he also locates in the Sermon classic topics in morality such as the nature of happiness intentionality the intelligibility of human action and the development of virtue Yet far from merely placing the teaching of Aristotle in the mouth of Jesus he demonstrates how the Sermon presents an account of happiness and virtue transformed in the light of Christian faith The happiness portrayed is that of the Kingdom of heaven and the habits needed to participate in it in the next life but even initially in this one are possible only by God's grace through Jesus Christ and lived in the community that is the Church

*Catechesis for the New Evangelization* Brian Pedraza, 2020-06-12 Popes Francis Benedict XVI and John Paul II have called the present a time of New Evangelization for the Church and have stressed the importance of catechesis for this mission John Paul II claimed that this renewal of the Church's mission is grounded in the teachings of the Second Vatican Council Nevertheless approaches to catechesis in the conciliar and postconciliar era have varied greatly as evidenced by the shifts in catechetical practice effected by the modern catechetical movement Just as the dominant forms of theology changed from neo scholastic to anthropological approaches so too did catechesis move from catechism based approaches to more anthropological models based upon human experience In light of this context Catechesis for the New Evangelization examines the theological foundations of catechesis in the Church's understanding of divine revelation and its reception by the human person especially as found in the conciliar constitutions Dei Verbum and Gaudium et Spes After drawing norms on divine revelation from these documents it traces the history of the modern catechetical movement in order to compare this history with the conciliar norms highlighting the renewal's strengths and weaknesses These steps prepare the way for the main part of the book an examination of the anthropology of Karol Wojtya a Pope John Paul II Ultimately his anthropology provides an understanding of the person that can unite divine revelation and human experience in a way that takes what is best from the modern catechetical movement while developing the ministry in a way that can be fruitful for the New Evangelization Pedraza's book is not only an incisive look at modern catechetical history and theory It also touches upon

some of the most important theological topics of the past century including the neo scholastic crisis the proper interpretation of the Council the relationship of nature and grace and the modern understanding of the imago dei with the research and competency appropriate for scholarly interest and the accessibility needed for educated practitioners in catechesis

*Growing in Virtue* William C. Mattison III, 2023-03-01 A compelling analysis tying the work of Aquinas to contemporary literature on virtue Despite heightened attention to virtue contemporary philosophical and theological literature has failed to offer detailed analysis of how people attain and grow in the good habits we know as the virtues Though popular literature provides instruction on attaining and growing in virtue it lacks careful scholarly analysis of what exactly these good habits are in which we grow *Growing in Virtue* is the only comprehensive account of growth in virtue in the thought of Thomas Aquinas Mattison offers a robust account of habits including what habits are why they are needed and what they supply once possessed He draws on Aquinas to carefully delineate the commonalities and differences between natural acquired virtues and graced infused virtues Along the way Mattison discusses the distinction between disposition and habit the role of custom in virtue formation the nature of virtuous passions the distinct contribution of the gifts of the Holy Spirit to graced life explanations for persistent activity after the loss of virtue and the possibility of coexistence of the infused and acquired virtues in the same person For readers interested in virtue and morality from a philosophical perspective and scholars of theological ethics and moral theology in particular Mattison offers compelling arguments from the work of Aquinas explicitly connected to contemporary scholarship in philosophical virtue ethics

*Reframing Catholic Theological Ethics* Joseph A. Selling, 2016 Traditionally Catholic moral theology has been based upon an approach that over emphasized the role of normative ethics and subsequently associated moral responsibility with following or disobeying moral rules *Reframing Catholic Theological Ethics* offers an alternative ethical method which without destroying any of the valuable insights of normative ethics reorients the discipline to consider human motivation and intention before investigating behavioral options for realizing one's end Evidence from the New Testament warrants the formation of a teleological method for theological ethics which is further elaborated in the approach taken by Thomas Aquinas Unfortunately the insights of the latter were misinterpreted at the time of the counter reformation Joseph A. Selling's analysis of moral theological textbooks demonstrates the entrenchment of a normative method aimed at identifying sins in service to the practice of sacramental confession With a firm basis in the teaching of Vatican II the human person integrally and adequately considered provides the fundamental criterion for approaching ethical issues in the contemporary world The perspective then turns to the crucial question of describing the ends or goals of ethical living by providing a fresh approach to the concept of virtue Selling concludes with suggestions about how to combine normative ethics with this alternative method in theological ethics that begins with the actual ethical orientation of the human person toward virtuous living
