Teaching has always been about balance, balancing lessons, grading, parent communication and the unique needs of every student. However, in 2025, maintaining that balance is more challenging than ever. Teachers are stretched thin and the demands of modern classrooms can feel overwhelming. That's where artificial intelligence (AI) comes in. But let me be clear: this book isn't about replacing teachers with robots or adding more technology headaches to your plate. It's about introducing you to free, easy-to-use AI tools that can reduce your workload, spark creativity and free up time for what matters: connecting with your students. When I started researching AI in education, I was amazed by how many powerful tools were available at no cost. Teachers were using them to draft lesson plans in minutes, generate practice quizzes, provide personalised feedback and even keep their classrooms more organised. The more I explored, the clearer it became: every teacher deserves access to these tools and, most importantly, guidance on how to use them effectively.
