And since video content is all the rage now, top brands are using Instagram Reels for business marketing by sharing short video content to convey their branding and advertising messages on the Explore page as well as with followers to gain massive traction. As it rolled out to the majority of users in August 2020, this feature is being made available across 50 countries including the U.S., making it an impeccable platform to interact with audiences and fuel your branding endeavors. The timing is also fortuitous given TikTok's uncertain future in the U.S. as the Trump administration weighs either banning the Chinese-owned app entirely or forcing it to sell off its U.S. operations. To put this further into perspective, let's take a look at a few stats. The average time spent on Instagram increased by 3.5% since the launch of Instagram Reels. For example, some published data reflects recent development as follows: Two-thirds of the NBA's franchises have posted at least one Reel since the feature launched in the United States. The Los Angeles Lakers top the league in engagement on Instagram Reels with more than 385,000 engagements and more than 4.1M plays on a single video. DADLY Dollar\$: How Marketing to Dads Will Increase Revenue and Strengthen Families Hogan Hilling,Tom Konecny,Don Hudson,2017-06-18 The idea of marketing to dads is as unconventional as a dad who chooses to relinquish his role as the primary breadwinner to become the primary caregiver for his family But as the at home dad movement has demonstrated since the birth of the National At Home Dad Network in 1996 it has had a profound impact in the changing role of today s modern dads who now view parenting as a shared responsibility One of which is as the primary or part time shopper for their families Since dads represent half the parenting population this book raises the following questions Why don t companies view marketing to dads as an opportunity to increase revenue and potential profits Why do companies and advertisers continue to ignore the purchasing power of dads Why haven t companies conducted extensive studies on how dads buy products and services and also how to reach and connect with dads Research clearly shows that the dynamics of today s families and role of parents continue to evolve Yet companies and advertisers continue to use old school marketing strategies with mom as its primary target audience Yes the thought of dads as a potential primary or even part time shopper is hard to embrace as it was decades ago when companies shied away from the thought of a woman becoming the primary breadwinner The success of women in corporate America alone should indicate the reason for a change in a company or advertiser s marketing strategy DADLY Dollars will introduce companies and advertisers to a new untapped consumer dads It will also teach them how to reach and connect with dads market to dads capitalize on their purchasing power and how marketing to dads will increase their revenue profit and brand loyalty In addition it will also show a company the overall benefits to the economy families and communities
