How the era of digitalization creates alternative lifestyles** Lisa-Marie

Wagner,2020-06-18 Bachelor Thesis from the year 2020 in the subject Business economics Business Management Corporate Governance grade 1 6 language English abstract In this paper the phenomenon of digital nomadism in permanent employment is presented In general digital nomads are characterized by their independence of location their employment in the digital space and common values Most of them are freelancers and entrepreneurs but also employees who are part of this movement want to leave the conservative concept of normal employment and break new ground First the changes in the business world and the emergence of digital nomadism were presented in this paper Due to a lack of literature guideline based expert interviews were conducted to gain insight into the opportunities and risks of the multi local lifestyle concept for employees and companies In addition the framework conditions for companies and digital nomads required by this work and life concept were examined and presented in detail Such a framework condition can mean for example the adaptation of

processes and leadership There are also differences between completely remote companies and only partially remote companies which can lead to a split company structure In this context the similarities and differences between traditional telework and digital nomadism in permanent employment were also examined These are similar for example regarding the technical prerequisites that should be created in companies and the changed communication In addition there are challenges and opportunities that arise from the travel component and the nature of digital nomadism such as negatively impaired processes due to time differences or certain characteristics and experiences that digital nomads possess or experience that can be used positively in a professional context Thus this work not only serves a scientific purpose but also provides a practical framework for employing digital nomads in traditional companies [Flexible Lives](#) Stefanie Reissner, Michal Izak, 2025-08-07 This geographically and methodologically diverse volume shines the spotlight on a variety of flexible working practices beyond the predominantly Western perspective and zooms in on the gendered aspects of flexible working The increasing use of flexible work arrangements has decoupled work from time and space making the world of work and home increasingly fluid and challenging to manage The Covid 19 pandemic in particular has been a catalyst for questioning accepted norms of where when and how work takes place This book seeks to explore the impact which this reshaping of traditional modes of working has had on workplace interactions and relationships as well as on managing the boundaries between familial and working lives In this way this collection contributes to a wider dialogue concerning the flexibility challenges encountered by white collar workers which is needed now more than ever This book will be relevant to scholars practitioners and policymakers in the fields of gender studies organizational behavior human resources and labor economics It will be particularly useful for those examining the impact of remote work the future of work organizational culture and the social and economic implications of shifting work practices The chapters in this book were originally published in *Culture and Organization* and are accompanied by an updated Introduction and a new Epilogue **Elgar Encyclopedia of City and Place Branding** Eduardo Oliveira, Efe Sevin, Emma Björner, 2025-06-09 This Encyclopedia presents a comprehensive overview of the dynamic field of city and place branding Authored by nearly 150 experts from across the globe it covers a wide variety of disciplines methodologies and perspectives highlighting cutting edge developments and exploring avenues for future research **Remodelling Businesses for Sustainable Development** Adina Letiția Negrușă, Monica Maria Coroș, 2023-01-16 This book discusses current trends challenges and opportunities in the fields of business hospitality and tourism particularly in Eastern Europe Featuring selected papers presented at the second annual Modern Trends in Business Hospitality and Tourism International Conference held in Cluj Napoca Romania in 2022 this book explores sustainable business re modelling in various fields including hospitality and tourism from managerial marketing financial and information technology business challenges and opportunities during crises modern customer experiences human capital leadership organizational behavior and investment financing in post COVID 19 recovery *OECD Fiscal Federalism Studies Bricks,*
