Handbook for Social Work Writing Susan E. Mason,Wendy Zeitlin,2024-03-28 This concise accessible and engaging handbook offers a companion for social work students to acquire professional and competency based writing skills Written by experienced educators the book builds writing proficiency by introducing a social work based guide to academic writing and

professional communication Each chapter addresses a specific area of social work writing and development progressing from coursework and beginning fieldwork to practice based assessments and reports The authors integrate a series of scaffolded activities throughout for readers to cultivate awareness and further technique and with sections explaining contemporary communication methods and common writing challenges readers will be prepared to use technology both to strengthen their writing and to ease the overall process Excellent for use in courses across the social work curriculum and as a personal guide the Handbook for Social Work Writing provides students with on the spot guidance for any type of academic or professional writing assignment

The Radical Case for Teaching Skim Reading in First-Year Writing Ellen C. Carillo,2025-10-15 The Radical Case for Teaching Skim Reading in First Year Writing encourages faculty particularly in writing studies to check internal biases toward deep reading and teach skim reading in first year writing courses Written by Ellen C Carillo who has previously published on the importance of teaching deep reading this small book is a controversial prompt for further discussion and exploration Data from studies of the lived experiences of undergraduates indicate that students do not need deep reading practices in the majority of their classes across the disciplines and moreover that students succeed in their classes by skim reading Rather than imagining an idealized set of circumstances that allow for sustained deep reading as does a great deal of the scholarship on reading in writing studies The Radical Case for Teaching Skim Reading in First Year Writing argues for teaching students reading practices that will support their success in their college writing assignments rather than those strategies the field believes should support their success In our information landscape and our fragile democracy encouraging skimming as opposed to deep reading may seem like a gamble this very tendency toward the quick rather than the critical has undoubtedly contributed to the current crisis of mass misinformation However teaching students to use skim reading as a strategic tool for purposeful engagement and efficient yet thoughtful information filtering better equips them to navigate the rapidly changing information landscape and manage the fast paced flow of content from diverse media sources
