In The Plex Summary Of The Key Ideas Original Book By Steven Levy How Google Thinks Works And Shapes Our Lives:

In the Plex Steven Levy, 2011-02-02 The most interesting book ever written about Google The Washington Post delivers the inside story behind the most successful and admired technology company of our time now updated with a new Afterword Google is arguably the most important company in the world today with such pervasive influence that its name is a verb The company founded by two Stanford graduate students Larry Page and Sergey Brin has become a tech giant known the world over Since starting with its search engine Google has moved into mobile phones computer operating systems power utilities self driving cars all while remaining the most powerful company in the advertising business Granted unprecedented access to the company Levy disclosed that the key to Google s success in all these businesses lay in its engineering mindset and adoption of certain internet values such as speed openness experimentation and risk taking Levy discloses details behind Google s relationship with China including how Brin disagreed with his colleagues on the China strategy and why its social networking initiative failed the first time Google tried chasing a successful competitor He examines Google s rocky relationship with government regulators particularly in the EU and how it has responded when employees left the company for smaller nimbler start ups In the Plex is the most authoritative and in many ways the most entertaining James Gleick The New York Book Review account of Google to date and offers an instructive primer on how the minds behind the world s most influential internet company function Richard Waters The Wall Street Journal

In the Plex Steven Levy, 2011 Written with full cooperation from top management including cofounders Sergey Brin and Larry Page this is the inside story behind Google the most successful and most admired technology company of our time told by one of our best technology writers Few companies in history have ever been as successful and as admired as Google the company that has transformed the Internet and become an indispensable part of our lives How has Google done it Veteran technology reporter Steven Levy was granted unprecedented access to the company and in this revelatory book he takes readers inside Google headquarters the Googleplex to show how Google works While they were still students at Stanford Google cofounders Larry Page and Sergey Brin revolutionized Internet search They followed this brilliant innovation with another as two of Google s earliest employees found a way to do what no one else had make billions of dollars from Internet advertising With this cash cow Google was able to expand dramatically and take on other transformative projects more efficient data centers open source cell phones free Internet video YouTube cloud computing digitizing books and much more The key to Google s success in all these businesses Levy reveals is its engineering mind set and adoption of such Internet values as speed openness experimentation and risk taking After its unapologetically elitist approach to hiring Google pampers its engineers free food and dry cleaning on site doctors and masseuses and gives them all the resources they need to succeed Even today with a workforce of more than 23 000 Larry Page signs off on every hire But has Google lost its innovative edge With its newest initiative social networking

Google is chasing a successful competitor for the first time Some employees are leaving the company for smaller nimbler start ups Can the company that famously decided not to be evil still compete No other book has ever turned Google inside out as Levy does with In the Plex
